

Hi,

Dear Mike Smith , Guildford Borough Council

Thank you very much for your pre consulting notice regard street trading license renewal for "Family favorites sausages "

Let me make very clear for every one we are not against anyone business at all but we are completely independent high street trade with no high bank balance reserve at all, who is completely reliant on day to day business.

The main reason to be in the high street and paying premium business rates which is 40K at the moment plus 65K Plus VAT rent, I presuming we have every right to be seen and noticed from every angle.

Earlier this year due to the stalls "Family favorites sausages " who continued trading in front of our shop 64 High Street, our shop front were completely covered and our business were hardly noticed also all day long re processing foods smell were coming in to the shop which was also making customers very uncomfortable.

Being a dying high street business we strongly demanding Guildford Council that please if you move above name stalls further down or up as this area is already tight and very congested

I am looking forward to receive positive decision as my privies grievance and concern was interpreted wrongly.

Thanks
