Date: 28 March 2019

Financial Monitoring Report (April 2018 – January 2019)

Executive Summary

The report summarises the projected outturn position for the Council's general fund revenue account, based on actual and accrued data for the period April to January 2019.

Officers are projecting a reduction in net expenditure on the general fund revenue account of £2,516,169. This is the result of a reduction in the statutory Minimum Revenue Provision (MRP) charge to the general fund to make provision for the repayment of past capital debt. This lower than budgeted MRP charge reflects a re-profiling of capital schemes, which has also had a positive impact on the level of our cash balances and assumed external borrowing costs, which have combined to produce higher than budgeted net interest receipts. At service level, the projected outturn is £840,958 lower than the latest estimate once adjusted for items either funded from reserve or transferred to reserve. It is currently assumed, subject to consultation with the Lead Councillor for Finance and Asset Development, that the underspend will be transferred to the Invest to Save reserve to pump prime the Future Guildford Transformation project.

A surplus on the Housing Revenue Account will enable a projected transfer of £6.8 million to the new build reserve and £2.5 million to the reserve for future capital at year-end. The transfer is £216,947 lower than budgeted and is largely a consequence of the application of a risk-free interest rate on HRA reserve balances reflecting the allocation of risk between the general fund and the HRA.

Officers are making progress against significant capital projects on the approved programme as outlined in section 7. The Council expects to spend £50.13 million on its capital schemes by the end of the financial year. The expenditure is higher than it has been for many years and demonstrates progress in delivering the Council's capital programme and corporate plan objectives.

The Council's underlying need to borrow to finance the capital programme is expected to

be £31.48 million by 31 March 2019, against an estimated position of £71.15 million. The lower underlying need to borrow is a result of slippage on both the approved and provisional capital programme as detailed in paragraphs 7.3 to 7.6 of the report.

The Council held £118.9 million of investments and £212.5 million of external borrowing at 31 January 2019, which includes £193 million of HRA loans. Officers confirm that the Council has complied with its Prudential indicators in the period, which were set in February 2018 as part of the Council's Capital Strategy.

Recommendation to Corporate Governance and Standards Committee

That the Committee notes the results of the Council's financial monitoring for the period April 2018 to January 2019 and makes any comments it feels appropriate.

Reason for Recommendation:

To allow the Committee to undertake its role in relation to scrutinising the Council's finances.

1. Purpose of Report

- 1.1 Recommendation 8 of the 2015 Council Governance Review was: 'That the importance of the Corporate Governance and Standards Committee to the Council be recognised, particularly in the way in which it supports the overview and scrutiny function through ongoing scrutiny of financial matters, including its proposed expanded remit on the treasury management function and budget monitoring.
- 1.2 This Committee started its enhanced review of our financial management at its meeting on 24 September 2015. This report covers the period April 2018 to January 2019.

2. Strategic Priorities

- 2.1 Councillors have reviewed and adopted an ambitious corporate plan for the period 2018-2023. The plan includes many significant projects and aspirations that will challenge us financially. Monitoring of our financial position during the course of the financial year is a critical part of our management of resources that will ultimately support delivery of the corporate plan.

3 Background

- 3.1 The Council regularly undertakes financial monitoring in a number of ways:
 - (a) two types of general fund revenue budget monitoring report; a full monitor for periods 3, 6, 8 and 10 and a shorter monitor for the other periods (except April) covering key service areas (Industrial Estates, Investment Property, Development Control, Major Projects, Planning Policy, Off Street Parking, Refuse and Recycling, Parks and Countryside). This report covers the period to January 2019 (period 10) and covers all Council services
 - (b) quarterly monitoring of the capital programme

- (c) monthly and quarterly monitoring of its treasury management activity
 - (d) monitoring at periods 3,6,8 and 10 of the Housing Revenue Account
- 3.2 The Council's Corporate Management Team (CMT), Chief Finance Officer and deputy, and officer capital programme monitoring group review monitoring reports. Financial monitoring for all services is reported to the Council's Corporate Governance and Standards Committee on a regular basis.
- 3.3 This report sets out the financial monitoring and covers:
- (a) general fund revenue monitoring (section 4)
 - (b) housing revenue account monitoring (section 5)
 - (c) treasury management (section 6)
 - (d) capital programmes (section 7)

4 General Fund Revenue Account monitoring

- 4.1 **Appendix 1** shows the summary monitoring report for the general fund revenue account. Officers have prepared the projected outturn on ten months' actual and accrued data.
- 4.2 **Appendix 2** shows detailed information for each service split between direct expenditure and income and indirect costs. We monitor the projected outturn against the revised (or latest) budget as this takes into account any virement or supplementary estimates approved since the original budget was set in February 2018.
- 4.3 At total service level, after adjustment for movements to and from reserve, the projected outturn is £840,958 lower than the latest estimate.
- 4.4 Net external interest receivable is projected to be £1,269,758 higher than our original estimate. The reason for this improvement is set out in paragraph 6.7 below.
- 4.5 The Minimum Revenue Provision (MRP), based on the Capital Financing Requirement (CFR) at 31 March 2018 for the purposes of this report is shown as £795,190. This is £405,453 lower than originally estimated. The reduction is due to slippage in the capital programme experienced during 2017-18.
- 4.6 The overall projected position for net expenditure is £2,516,169 lower than estimate.
- 4.7 The table below shows the supplementary estimates and virements approved to date.

Supplementary Estimates 2018-19

Major Service Variances

4.8 **Appendix 2** provides detailed information on variances at a service level.

5 Housing Revenue Account

5.1 **Appendix 3** shows the budget monitoring report for the Housing Revenue Account (HRA) for the period April 2018 to January 2019. The report shows that HRA gross service expenditure is projected to outturn at 100.94% of the budgeted level, whilst income is projected to be 100.13% of the budgeted level. The projected outturn would enable a transfer of around £9.3 million to the new build reserve and the reserve for future capital.

- The rental income estimate for 2018-19 included a prudent allowance for Right to Buy (RTB) sales and the re-commissioning of units. Rental income is projected to be £100,840 (0.34%) lower than budgeted.
- It is projected that salary related expenditure; net of temporary staffing, vacancy credit and redundancy costs may result in a saving against budget of up to £141,000.
- Emphasis continues to be on planned rather than responsive maintenance, supported by the benefits accruing from past levels of expenditure on planned capital and revenue maintenance works. At this point of the year, the projected expenditure on repairs and maintenance remains as per the budget.
- With the exception of receipts from RTB sales, the estimates for the year do not provide for any repayment of HRA debt principal or for setting aside any amounts towards the repayment of debt. This is consistent with the HRA Business Plan, which prioritised the provision of additional housing. This approach will be subject to regular review and an updated business plan will be submitted reflecting constraints placed on the HRA by the prevailing legislation.

- 5.2 Tenancy arrears remain stable and are consistent with the assumptions contained in the business plan. Particular attention is paid to introductory tenancies (tenants of less than 12 months), as they often have no previous experience of managing a household budget or of renting a property.
- 5.3 In measures announced in the Social Housing Green Paper, the plan to impose a higher-value asset levy on social housing providers was scrapped, and the relevant provisions of the Housing and Planning Act 2016 repealed. This will mean that, for the first time in many years, councils will be able to prepare longer-term HRA business plans without the threat of imposition of the levy and the sale of so-called higher-value council housing and the consequent loss of vital future rental income entailed.
- 5.4 The proposals for reform in the way in which councils are able to use receipts from the sale of council houses under the statutory Right to Buy, issued alongside the green paper, are also to be welcomed – as is the government’s announcement to remove of the borrowing cap on councils’ housebuilding.

6 Treasury Management

- 6.1 The Chartered Institute of Public Finance and Accountancy’s (CIPFA) Code of Practice on Treasury Management (“the Code”) recommends that Councillors are informed of treasury management activities at least twice a year. This report therefore ensures the Council is embracing best practice in accordance with CIPFA’s recommendations by reporting quarterly to Councillors.

Debt management

- 6.2 We have a substantial long-term PWLB debt portfolio for the HRA totalling £193 million. Currently, the general fund is only borrowing short-term for cash flow purposes. There is no cost of carry on our short-term borrowing.
- 6.3 The following table summarises the current borrowing position of the Council and the activity to month 10.

Loan type		Balance 01 April 18 £000	New loans £000	Loans repaid £000	Balance 31 Jan 19 £000	Weighted average rate of
PWLB						3.16%
Variable		45,000	0	0	45,000	
Fixed	Maturity	147,435	0	0	147,435	
	EIP	690	0	(115)	575	
Total long-term Loans		193,125	0	(115)	193,010	
Temporary Loans		48,500	60,500	(89,500)	19,500	0.83%
Total Loans		241,625	60,500	(89,615)	212,510	

Investment activity

- 6.4 During the period, we have continued with the diversification of our in-house investment portfolio into secure instruments such as bonds and secure bank deposits (not subject to bail-in) in line with our Treasury Management Strategy.
- 6.5 The Council's budgeted investment income for 2018-19 is £1.6 million; the projected outturn is £2.1 million. The gross cash balances representing the Council's reserves and working balances at 31 January 2019 available for investment were £119 million and net of short-term borrowing £100 million.
- 6.6 The Council's budgeted external interest cost, which relates to short and long-term borrowing, for the year is £6.03 million and the outturn is projected to be £5.4 million.
- 6.7 The original net interest receivable budget was £677,000. As at 31 January, we are projecting this will outturn at £1.94 million. This results from a reduction of £724,000 in interest payable on external borrowing assumptions. The reduction in external borrowing interest cost includes £64,000 relating to the budgeted loan for Clay Lane link road, £300,000 for Major Projects strategic property capital expenditure and £200,000 relating to a liquidity buffer loan. On 2 August 2018, the Bank of England increased the base rate by 0.25% to 0.75%. This has resulted in higher investment returns on our variable interest rate investments.
- 6.8 The Council's annualised weighted return on investments for the period to January 2019 was 1.336% against an estimate of 1.629%.
- 6.9 The table below summarises the Council's investment activity for April to January 2019.

Investment	Principal invested £000	Balance 01 April 18 £000	Movement in investment £000	Change in capital value £000	Balance 31 Jan 19 £000	Weighted average rate of interest

Revolving Credit Facility		2,500	5,000		7,500	2.30%
Total Investments		133,637	(6,808)		118,919	

6.10 Some of our externally managed funds have seen a fall in their capital values since inception. The falls are indicative of wider financial market movements over the same period. The Council's external investments are held for long-term purposes and are invested to generate an income for the Council over the longer term. Any loss in investment value will not be realised unless the investment is sold. The Council has an earmarked reserve available to utilise in the event of a loss, thus minimising the impact on the general fund.

Prudential Indicators

6.11 Officers confirm that the Council has complied with its Prudential indicators in the period, which were set in February 2018 as part of the Council's Treasury Management Strategy Statement.

Authorised limit and Operational Boundary for External Debt

6.12 The Local Government Act 2003 requires the Council to set an Affordable Borrowing Limit, irrespective of their indebted status. This is a statutory limit, which we should not breach.

6.13 The Council's authorised borrowing limit was set at £591 million for 2018-19.

6.14 The Operational Boundary is based on the same estimates as the Authorised Limit but reflects the most likely, prudent but not worst-case scenario without the additional headroom included in the Authorised Limit.

6.15 The operational boundary was set at £535 million for 2018-19.

6.16 The Chief Finance Officer confirms that there have been no breaches to the authorised limit and operational boundary during the year. Borrowing, at its peak, was £241.6 million.

7 Capital Programmes

7.1 **Appendices 4 to 9** of this report set out the following for each scheme on the Council's capital programme

- the gross estimate for the scheme approved by the Executive
- the cumulative expenditure to 31 March 2018 for each scheme
- the estimate for 2018-19 as approved by Council in February 2018
- the 2018-19 revised estimate which takes into account the approved estimate, any project underspends up to 31 March 2018, and any virement or supplementary estimates
- 2018-19 current expenditure
- 2018-19 projected expenditure estimated by the project officer

7.2 The table below summarises the current position on the various strands of the Council's capital programme. Detailed explanation is provided in paragraphs 7.3 to 7.11 below.

CAPITAL EXPENDITURE SUMMARY	2018-19 Approved £000	2018-19 Revised £000	2018-19 Outturn £000	2018-19 Variance £000
General Fund Capital Expenditure				
- Main Programme	54,932	59,246	44,509	(14,737)
- Provisional schemes	40,458	33,941	384	(33,557)
- Schemes funded by reserves	4,351	6,175	4,890	(1,285)
- S106 Projects	0	350	350	0
- Affordable Housing (General Fund)	0	0	0	0
Total Expenditure	99,741	99,712	50,133	(49,580)
Housing Revenue Account Capital Expenditure				
Approved programme	14,876	15,242	13,659	(1,584)
Provisional programme	7,830	7,830	442	(7,388)
Total Expenditure	21,970	23,072	14,101	(8,972)

Approved (main) programme (Appendix 4)

7.3 Expenditure is expected to be £44.5 million representing a £14.7 million variance to the revised estimate of £59.2 million. If a project is on the approved programme, it is an indicator that the project has started or is near to starting following the approval of a final business case by Executive. Whilst actual expenditure for the period of £30.9 million may seem low, a number of significant projects are in progress. These include:

- ED25 – Guildford Park infrastructure works (£4.76 million) - this scheme received planning consent in November 2016 and initial works are progressing. A significant amount of the cost of this project is still on the provisional capital programme awaiting final business case approval.

- ED6 – Slyfield area Regeneration Project (SARP) (£1.76 million) - work is progressing on the detailed design, pre-planning and site investigation work for this scheme to inform the final business case. The budget for the full scheme is still on the provisional capital programme.
- PL9 – Crematorium rebuild (£5 million) – work is progressing on this scheme which is scheduled for completion in 2019-20
- ED32 – Internal Estate Road CLLR Phase 1 (£4.96 million)
- ED49 – Midleton Industrial Estate redevelopment (£1.8 million)

7.4 In addition to the schemes outlined above, the re-profiling of the following significant amounts that were due to be spent on schemes or projects in 2018-19 will now be carried forward into 2019-20 or vice versa.:

- North Downs Housing investment (£16.29 million) – spend now expected between 2019-2022.
- TCMP sites – Bedford Road Wharf (£15.75 million) – spend now in 2018-19 originally expected in 2019-20.
- PL9 – Crematorium rebuild (£5.43 million) – work is progressing on this scheme which is scheduled for completion in 2019-20

Provisional programme (Appendix 5)

7.5 Expenditure on the provisional programme is expected to be £0.38 million, against the revised estimate of £33.94 million, representing a variance of £33.58 million. These projects are still at feasibility stage and will be subject to Executive approval of a business case before they are transferred to the approved capital programme. It is only once the business case is approved that the capital works can start. Monitoring progress of these projects is key to identifying project timescales. The significant projects are:

- ED25(p) – Guildford Park new MSCP and infrastructure works (£18.62 million)
- ED48(p) – Westfield/Moorfield Road resurfacing (£3.15 million)

The re-profiling of schemes has resulted in a significantly lower level of expenditure than planned in 2018-19.

7.6 A number of other projects, that were also anticipated to start in 2018-19 have been re-profiled into future years including:

- PL16(p) - New burial ground acquisition and development (£2.46 million)
- PR7(p) - Town Centre transport infrastructure package (£4 million)
- ED22(p) - Energy efficiency compliance council owned properties (£1.15 million)

S106 (Appendix 6)

7.7 Capital schemes funded from s106 developer contributions are expected to total £350,000.

Reserves (Appendix 7)

7.8 Capital schemes funded from the Council's specific reserves. The outturn is anticipated to be £4.89 million. The main projects are:

- expenditure on car parks £1.79 million
- ICT renewals £1.5 million
- ICT infrastructure improvement £1.25 million

Capital resources (Appendix 8)

7.9 When the Council approved the budget, the estimated underlying need to borrow for 2017-18 was £71.1 million. The current estimated underlying need to borrow is £31.48 million. The reduction is due to slippage in the programme where schemes are re-profiled into future years.

Housing Investment Programme Approval Capital (Appendix 9)

7.10 The HRA approved capital programme is expected to outturn at £13.66 million against a revised estimate of £15.2 million. A number of projects are in progress. These include:

- Guildford Park - initial works are progressing, a significant amount of the cost of this project is still on the provisional capital programme awaiting final business case approval.
- Appletree - works are progressing with completion due in May 2019.
- Great Goodwin Drive - works are ongoing, completion is due this financial year.
- Ladymead/Fire Station – works started on site in Autumn 2018.

Housing Investment Programme Provisional Capital (Appendix 10)

7.11 The provisional programme's budget was £7.8 million with expenditure anticipated this financial year of £0.44 million. This programme includes provision for the opportunity purchase of land and housing for development, which is dependent on the availability of suitable sites. Changes to the profiling of expenditure on the Guildford Park and Bright Hill redevelopments contributed to a position where expenditure is lower than originally anticipated in 2018-19.

8 Consultations

8.1 The accountants prepare the budget monitor in consultation with the relevant service managers.

9 Equality and Diversity Implications

9.1 There are no direct equality and diversity implications as a result of this report. Each service manager will consider these issues when providing their services and monitoring their budgets.

10 Financial Implications

10.1 The financial implications are contained throughout the report.

11 Legal Implications

11.1 The Local Government Act 1972, Section 151 states that each local authority has a statutory duty to make arrangements for the proper administration of their financial affairs. In addition, the Accounts and Audit Regulations 2015 impose an explicit duty on the Council to ensure that financial management is adequate and effective and that they have a sound system of internal control, including arrangements for the management of risk.

11.2 Proper administration is not statutorily defined; however, there is guidance, issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) on the responsibilities of the Chief Finance Officer (CFO). This states that local authorities have a corporate responsibility to operate within available resources and the CFO should support the effective governance of the authority through development of corporate governance arrangements, risk management and reporting framework. Regular monitoring of the Council's actual expenditure to budget and forecasting of the expenditure for the full year is part of the proper administration and governance of the Council.

11.3 There are no further direct legal implications because of this report.

12 Human Resource Implications

12.1 There are no human resource implications arising from this report.

13 Summary of Options

13.1 This report outlines the anticipated outturn position for the 2018-19 financial year based on ten months actual data. There are no specific recommendations and therefore no options to consider.

14 Conclusion

14.1 The report summarises the financial monitoring position for the period April to January for the 2018-19 financial year.

14.2 Officers are currently projecting a reduction in net expenditure of £2,516,169 on the general fund revenue account. The main reasons for this are set out in the table in paragraph 4.8.

14.3 The Chief Finance Officer in consultation with the Lead Councillor for Finance and Asset Development will determine the treatment of any balance as part of closing the 2018-19 accounts.

14.4 The surplus on the Housing Revenue Account will enable a transfer of £6.8 million to the new build reserve and £2.5 million to the reserve for future capital at year-end.

- 14.5 Actual expenditure incurred on our general fund capital programme for the period has been comparatively low against the programme envisaged at the 1 April 2018. Officers are making progress against significant capital projects on the approved programme as outlined in section 7. The Council expects to spend £50.13 million on its capital schemes by the end of the financial year.
- 14.6 It is anticipated that the Council's underlying need to borrow to finance the capital programme will be £31.48 million by 31 March 2019. The Council has complied with Prudential Indicators during the period with the exception of the upper limit on variable interest rates.
- 14.7 At the end of January 2019, the Council had £118.9 million of current investment balances.
