STATEMENT OF RESPONSIBILITIES

The Council's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this authority, that officer is the Chief Financial Officer.
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.
- Approve the Statement of Accounts.

The Chief Financial Officer's Responsibilities

The Chief Financial Officer is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Chief Financial Officer has:

- selected suitable accounting policies and then applied them consistently
- made judgements and estimates that were reasonable and prudent
- complied with the local authority Code.

The Chief Financial Officer has also:

- kept proper accounting records which were up to date
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the Statement of Accounts presents a true and fair view of the financial position of Guildford Borough Council at 31 March 2015 and of its income and expenditure for the year ended 31 March 2015.

Sue Sturgeon, CPFA
Chief Financial Officer
30 June 2015

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

CHIEF FINANCIAL OFFICER'S EXPLANATORY FOREWORD TO THE STATEMENT OF ACCOUNTS

Financial Performance during the year – General Fund Revenue

I have pleasure in presenting the Council's Statement of Accounts for the financial year 2014-15.

The overall financial climate continues to be difficult and is likely to remain so for a number of years. Local Government will continue to play its part in helping to address the national funding deficit, and each Council will be required to contribute accordingly by continuing to deliver services with fewer resources. Guildford Borough Council has continued to maintain its focus on robust planning and monitoring of the budget and identification of efficiency savings for the future.

In 2014-15, the Government provided us with a two-year finance settlement for 2014-15 and 2015-16. The reduction in the Council's settlement funding assessment from the Central Government was 13% (£833,000). This followed grant reductions of 15.2% in 2011-12, 12.6% in 2012-13 and 6.6% in 2013-14.

The budget for 2014-15 included investment in services of £994,770 to support the delivery of the Corporate Plan.

Given the cuts in central government funding, we identified £95,000 savings through our service challenge process in order to finance the service improvements and £922,000 of additional service income to achieve a balanced budget.

The additional income was generated from acquisitions of investment property as part of our asset investment strategy. The acquisitions resulted in additional rent income to the general fund.

The net budget requirement for the year 2014-15 was set in February 2014 at £41,827,035, a reduction of £41,187 from the Council's 2013-14 net budget requirement of £41,868,222. The net budget requirement is the amount the Council expects to spend after allowing for income from sources such as direct grants, fees, charges and rents but excludes income from revenue support grant, business rates and adjustments relating to the collection fund balance.

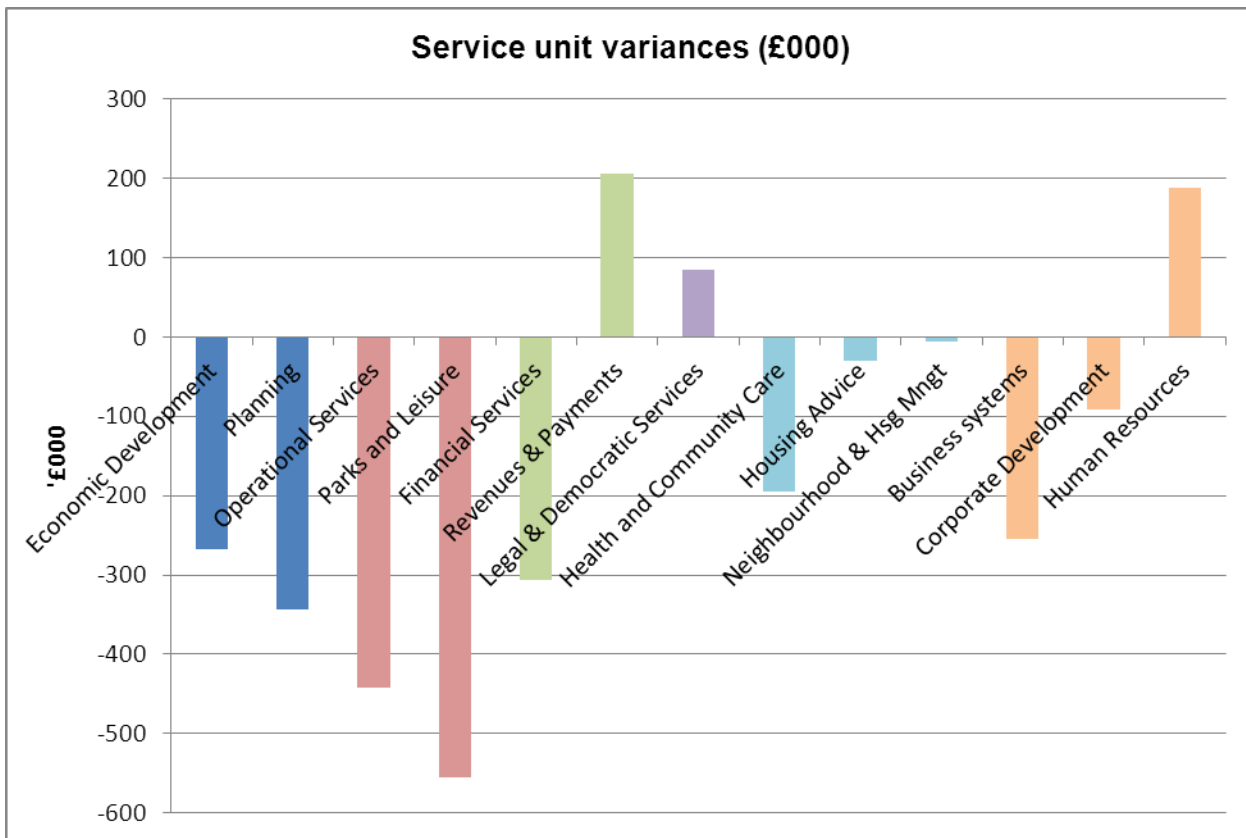

The net budget figure above excludes the precept requirements of the Parish Councils, which was £1,260,607 (2013-14 precept requirements were £1,224,407, an increase of 2.95%).

The Borough Council's band D council tax was set at £149.58, an increase of 1.9% from 2013-14. The report to Council on 13 February 2014, ([item 10](#)) available on the Council's website provides further details about the Council's budget for 2014-15.

We monitored performance against the budget closely through the year with particular attention paid to our key services (Development Control, Planning Policy, Industrial Estates, Investment Property, Leisure Management, Off Street Parking, Parks and Countryside and Refuse and Recycling), control of salaries and achievement of the efficiency savings included in the budget. Because of this strong financial management net expenditure at service unit level was £2.012 million lower than originally budgeted, after allowing for accounting adjustments and other items that do not impact on the level of council tax. This is around 2.1% of the total relevant gross expenditure budgets.

The Final Accounts report to the Executive on 11 June 2015 ([Item 5](#)), available on the Council's website, gives a detailed analysis of the variances in service expenditure. The chart below gives a summary of the main variances:

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The major items include:

Additional expenditure

- £93,000 additional gate fees for the disposal of recycling materials
- £69,000 additional costs for the local plan (excluding salary costs)

Reduced expenditure

- £469,000 lower than expected salary costs after taking into account expenditure on agency staff to provide essential cover for vacant posts and a provision for possible costs relating to changes in legislation regarding holiday pay entitlement
- £112,000 reduced expenditure on staff training
- £286,000 reduction in utilities expenditure
- £131,000 reduction in fuel, oil and tyre expenditure relating to vehicles
- £90,000 reduced cost of our officers' car leasing scheme

Additional income

- a one-off VAT refund of £165,000 relating to a change in VAT classification of trade waste from standard rated to non-business.
- £80,000 increased income from recycling credits and sale of recyclable material

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- £307,000 additional income at the Crematorium
- £471,000 additional planning fee income

The Council receives investment income from our cash backed reserves. On average, we had around £113 million invested. Overall, net interest returns in the year were approximately £467,000 more than anticipated at £1,167,569.

In setting the 2014-15 budget, a minimum revenue provision of £449,870 was assumed, based on the expected General Fund Capital Financing Requirement (CFR) at 31 March 2014 of £21.297 million. The actual General Fund CFR at March 2014 was £23.495 million, generating a minimum revenue provision of £433,756, which is approximately £16,000 less than budgeted following some changes to our MRP policy approved by the Council in February 2015.

Overall the net expenditure on the General Fund was lower than the original estimate to the value of £2.404 million. This has been utilised by the following contributions to reserve:

Item	Description	£000
1.	Following the introduction of bail-in regulations relating to investments with banks, we have been diversifying our portfolio to increase the security of our investments. This means that we now have some investments that, whilst more secure than a bank investment, are subject to variations in the capital value. We do not treat any change in value as expenditure or income until the investment is sold, and obviously, under normal circumstances we would not expect to sell at a loss. However, in order to be prudent, we have set up a reserve to contribute towards any future loss, should a sale be necessary. The value of such investments at 31.3.15 was £11.2 million.	100
2.	A contribution to the Armed Forces day reserve of £145,000 to finance costs that were excluded from the original outline budget.	145
3.	A contribution of £400,000 to make the unallocated balance on the Invest to Save reserve approximately £1 million	400
4.	The Council has a policy of increasing its rental from investment properties in order to help finance General Fund services. This has proved to be successful, but increases the risk of a shortfall in income should properties become void. Income from our industrial estate and investment properties in 2014-15 was £6.4 million. We have therefore set up an Investment Property Rent equalisation reserve to deal with any short term fluctuations in rental income	64
6.	Our contract for the disposal of co-mingled recycling ended on 23 April. Due to the worsening of market conditions and a reduction in the number of active suppliers, we currently have a short-term contract that we can roll over from month to month. We are agreeing a joint procurement exercise with Reigate and Banstead for a new long-term contract. At present, we estimate that there will be a loss of income of in 2015-16. In addition, given the market for recycled material is volatile and our exposure to it creates a significant risk to the General Fund budget, we have therefore set up a waste equalisation reserve to	450

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

	help mitigate the impact of price fluctuations in future.	
7.	The Mayor's fund is a charity, which is a separate entity to the Council, registered with the Charity Commission, which aims to support residents of Guildford that are in severe need. Grants are limited to £250 per person in any one year. The total value of grants made in 2014-15 was £9,600 (2013-14 was £10,600). The charity now has cash balances of only £14,000, which means that many grant applications are paid at a reduced amount. A donation of £20,000 will be made to the charity to enable it to continue to support Guildford residents in need.	20
8.	Increase contribution to Enterprise M3, Local Enterprise Partnership (LEP). The Council is required, through a levy, to contribute to the running costs of the LEP each year. We had budgeted to make a contribution of £5,000 in 2015-16 however, Enterprise M3 have notified us that the contribution will be £10,000 following an agreement at the Joint Leaders Board. The increased contribution reflects the significant increase in workload for the LEP, which comes at the same time as a reduction in core funding from Government. The contribution will allow Enterprise M3 to keep its core team in place and focus on the delivery of Local Growth Fund, Transport and Growing Enterprise Fund projects, which will bring substantial benefits to Guildford.	5

In addition to the contributions to reserves set out in the table above, we have set up new reserves for accounting purposes in 2014-15 as follows:

- Higher Level Stewardship (HLS) Scheme. Natural England has approved various schemes in our parks and countryside that it has given us grant income towards. We are currently in year five of a 10-year agreement. We set up a reserve to hold the receipt prior to expenditure being incurred. The balance at 31 March was £52,000.
- Special Protection Area (SPA) sites. We receive s106 income in relation to various SPA sites. We set up a reserve for each site to hold the receipt prior to expenditure being incurred. The sites and balance at 31 March are; Effingham (£211,000), Riverside Park (£294,000), Chantry Wood (£893,000), Lakeside (£555,000) and Parsonage Water (£709,000).
- Community Centres. We received income in the year from the former Management Committee of the Guildford Community Centre, which has now been demolished. Beverley Hall has replaced the facility but the balance is available for use on any of our Community Centres. The balance must be held in a reserve until it is used, the balance at 31 March was £126,000.
- Surrey County Council (SCC) Prevention Partnership Fund. Prevention through Partnership is a joint activity with Surrey County Council (SCC) focused on helping to keep elderly residents and those in social care living independently in their own homes, preventing them from entering into residential care. SCC agreed, through its Adult Social Care Select Committee, to give the 11 Boroughs and Districts £10 million over a five-year period 2012 - 2017. This balance must be held in a reserve until it is used the balance at 31 March was £197,000.

Financial Performance during the year - Capital Expenditure

Capital expenditure in the year totalled £25.404 million. The major areas of capital spend are shown in the graph below:

The capital expenditure was financed by utilising the following resources:

We only financed £17.944 million of our capital expenditure from existing resources, resulting in an increase to our Capital Financing Requirement, funded by internal borrowing, of £7.460 million.

We bought back the long leases on four investment properties for £7.4 million. The acquisitions were part of our Asset Investment Programme.

Internal sources of funds available at 31 March 2015 to meet future capital expenditure are:

- General Fund usable capital receipts £4.0 million
- General Fund capital programme reserve £1.9 million
- HRA usable capital receipts £26 million
- HRA future capital expenditure reserve £23.3 million

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- HRA new build reserve £20.9 million
- HRA Major Repairs Reserve £2 million

Financial Performance during the year - Treasury Management

Our treasury management annual report will be presented to Executive on 21 July 2015. Investments at 31 March 2015 totalled £113.887 million made up as follows:

Investment details	Balance at 31-03-15 £m
Internally Managed Investments	
Fixed Investments < 1 year to cover cash flow	50.50
Corporate bonds	3.50
Certificates of deposit	8.00
Notice Accounts	16.08
Call Accounts	3.03
Money Market Funds	6.04
Long term investments > 1 year	10.15
Externally Managed Funds	
Payden & Rygel	5.01
Funding circle	0.41
CCLA	6.18
SWIP	1.86
TOTAL	113.88

Gross interest received in the year from investments was £1.16 million against a budget of £0.7 million.

The Council internally borrowed £7.46 million for a property purchase. We took out external loans totalling £19.7 million during the course of the year for cash-flow purposes. The principal balance outstanding on our external loans at 31 March 2015 was £213.815 million.

The investment markets remained extremely challenging; the Bank of England held the base rate at 0.50% and the Council continued its focus on preserving capital whilst optimising interest earnings.

Explanation of Key Information contained in the Financial Statements

Local Authorities are required to prepare their accounts in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code). International Financial Reporting Standards (IFRS) form the basis for the Code, which has been developed by the Local Authority Accounting Code Board comprising members from the Chartered Institute of Public Finance and Accountancy (CIPFA) and Local Authority of Scotland Accounts Advisory Committee (LASAAC), under the oversight of the Financial Reporting Advisory Board (FRAB). The Code constitutes a proper accounting practice under the terms of section 21(2) of the Local Government Act 2003.

The complete set of financial statements is set out on the following pages. The Code prescribes the order of presentation of the financial statements and the Statement of Accounting Policies (note 1 to the accounts) supports the accounts by explaining the policies used in their preparation. In summary, the financial statements comprise the:

- Movement in Reserves statement (MIRS): showing the movement in the year on the different reserves held by the Council, analysed into usable reserves (i.e. those that we can use to

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

finance expenditure or reduce local taxation) and other reserves. This statement starts with the surplus or deficit on provision of services calculated in accordance with generally accepted accounting practice and shows the adjustments to the accounts made under statutory regulations and also the transfers we choose to make to or from earmarked reserves

- Comprehensive Income and Expenditure Statement (CIES): showing the accounting cost in the year of providing services in accordance with generally accepted accounting practices. This statement provides the detail behind the surplus or deficit on provision of services figure included in the Movement in Reserves statement. The statement shows the total expenditure and income in the year for all services.
- Balance Sheet: showing the value of the Council's assets and liabilities at 31 March 2015. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council
- Cash Flow Statement: showing the changes in the amount of cash and cash equivalents during the financial year. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities
- notes to the above statements: giving a summary of significant accounting policies and other explanatory information. We have split these notes into normal and accounting technical notes to aid the readability of the financial statements for users.
- Housing Revenue Account Income and Expenditure statement: covering income and expenditure relating to the provision of council housing in accordance with Part 6 of the Local Government and Housing Act 1989. The Housing Revenue Account is ringfenced from the rest of the General Fund. Its primary purpose is to ensure that the expenditure on managing tenancies and maintaining dwellings is balanced by rents charged to tenants so that rents cannot be subsidised from council tax, or vice versa
- notes to the Housing Revenue Account: giving explanatory information to the HRA Income and Expenditure statement
- Collection Fund revenue account: showing the transactions of the Council as a billing authority in relation to non-domestic rates and council tax. The Fund shows the way in which these have been distributed to local authorities and the Government on whose behalf Guildford Borough Council collects the amounts due
- notes to the Collection Fund: giving explanatory information to the Collection Fund revenue account

Income and Expenditure Statement (CIES)

The surplus on provision of services was £36.6 million. This was the net total of a surplus on the HRA of £38.4 million, and a deficit on the General Fund of £1.8 million.

The surplus on the HRA included a £22 million revaluation gain, reversing revaluation losses recognised in 2010-11 when the vacant possession adjustment factor used in the valuation of council dwellings was reduced from 45% to 32% in accordance with guidance published by the Government in January 2011.

However, the revaluation gain has been reversed out of the Movement in Reserves Statement as an adjustment between accounting basis and funding basis under regulations and therefore has no impact on HRA balances.

There was a £2.8 million increase in income for Cultural and Related Services due to receipts from developers under Section 106 of the Town and Country Planning Act 1990, which have been transferred to earmarked reserves in the MIRS and will be used to fund revenue and capital expenditure on various Special Protection Area (SPA) sites.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Total comprehensive income and expenditure was £75 million, compared to £26.5 million in 2013-14. The increase was primarily due to gains from the increase in value of the Council's property portfolio, partly offset by a loss from the re-measurement of the pension liability.

Movement in Reserves Statement

The MIRS shows that the deficit of £1.8 million and surplus of £38.4 million are added to the General Fund and HRA balances respectively, but that £8.6 million is added to the General Fund and £30.5 million is reversed back out of the HRA and transferred to useable and unusable reserves as a result of adjustments made under statutory regulations.

£7 million is then transferred to General Fund earmarked reserves, and £8 million to HRA earmarked reserves, to leave the General Fund and HRA revenue balances at £3.7 and £2.5 million respectively.

Balance Sheet

The Balance Sheet shows that our long term assets have increased in value during the year by 15% from £651 million to £751 million. This is due to a £62 million increase in value of the Council's property portfolio (primarily council dwellings) on revaluation during the year, £5.9million additions to Council dwellings and £5.7million additions to assets under construction, £7.4 million acquisitions and £2.5million revaluation of investment property and an increase in long-term investments of £8 million.

Current assets have increased by 21% from £92 million to £112 million, mainly due to an increase in investments (including those classified as cash equivalents) from £86 million to £106 million. After our liabilities are taken into account, our net assets have increased by 16% from £455 million to £530 million. This is matched by an increase in our unusable reserves of £59.5 million, and an increase in our usable earmarked reserves of £15 million.

Pension liability

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. The Council participates in the Local Government Pension Scheme administered by Surrey County Council – this is a funded scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets.

During 2013-14 the pension fund actuaries, Hymans Robertson, concluded a triennial review of the fund at 31 March 2013 and 2014-15 was the first year of implementation. The valuation results show that investment performance of the fund has been good over the three year period since the last valuation and outperformed the actuaries' assumptions at the previous valuation. However, the deficit on the pension fund for the Council has increased from £38.5m in 2010 to £50.5m in 2013, and the funding level reduced from 72% to 71%. The two main reasons for the increase in the deficit are as follows:

- The discount rate used to value the future pensions cost of the scheme has decreased. This is due to a decrease in investment returns on government bonds (gilt yields) as a result of quantitative easing by the Bank of England
- The outsourcing of leisure services to Freedom Leisure has resulted in an increase in the maturity profile of scheme members at the Council

The largest change to affect the deficit has been the reduction in the discount rate from 6.1% in 2010 to 4.6% in 2013. The discount rate has two elements. The largest element is the expected return on government bonds (gilts). Over the 3-year valuation period, the return on gilts has been 1 – 1.5% lower

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

than expected at the 2010 valuation due to the effect of quantitative easing by the Bank of England. The actuary expects gilt rates to remain low for some time.

The increase in the deficit meant that the Council's back funding payment into the scheme increased for the period 1 April 2014 to 31 March 2017. The valuation results retained the use of a stabilisation model to maintain an employer's contribution rate of 14.6% per year into the scheme. The use of the stabilisation model, permitted by the regulations, means that the Council will not be subject to increases in rate in difficult conditions, but neither will it receive reductions in rate should the valuation situation improve. Further details regarding the valuation of the pension fund were reported to the Audit and Corporate Governance Committee on 15th January 2014, [Item 5](#) and can be found on the Council's website.

The Council accounts for pension costs, in its financial statements, based on International Accounting Standard (IAS) 19; Employee Benefits. This standard requires that the cost of retirement benefits are reported when they are earned by employees rather than when the benefits are paid as pension. Legislation prevents this cost affecting council tax and housing rent levels, which are based on the cash payable in the year. The accounts include an adjustment for the difference in the form of a transfer to or from a statutory pensions reserve.

The accounts, based on IAS 19, show a total pension fund liability of £95.1 million (£70.6 million in 2013-14) which has a substantial impact on the net worth of the authority as recorded in the balance sheet. The position, as valued by IAS 19 differs to that reported as part of the triennial valuation principally because the accounting standard requires that the discount rate is set with reference to the yields on high quality corporate bonds irrespective of the actual investment strategy of the Fund. As such the IAS 19 valuation of the Fund is unlikely to reflect the eventual cost of providing the benefits and does not affect the level of contributions to the fund from either the employees or the Council. Statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy; the deficit will be made good by contributions over the remaining working life of employees as assessed by the scheme actuary. It is important to remember that pensions are long term assets and liabilities and the IAS 19 figures disclose the position at a point in time based on the actuaries' financial assumptions.

Reserves, Balances and Provisions

We are not required to include a full list of reserves and balances in the Statement of Accounts, however we included one in the Final Accounts report to the Executive on 11 June 2015 ([item 5](#)). Transfers to and from the reserves have been made during the year as appropriate and can be seen at Note 13 to the accounts. We have set up new reserves during the year as detailed above.

We increased the provision in respect of the Council's share of the estimated reduction in business rates collectable due to rating appeals by £2.2million, £0.5million of appeals were charged to the provision in year (see below).

We maintain a bad debt provision at a suitable level including sufficient provision to meet all likely non-collectable local taxation.

Collection Fund

We maintained a high level of collection performance for both Council Tax and Business Rates in the year. The council tax collectable debit for 2014-15 was approximately £87 million and 99.13% had been collected by 31 March 2015. At the same time, 99.27% of the collectable debit for non domestic rates (£81 million) had been collected.

We had anticipated a reduction in collection rates following the introduction of the Local Council Tax Support Scheme (LCTSS) however, this has not happened and collection rates have remained high.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Business Rates Retention Scheme

The Business Rates Retention Scheme (BRRS) allows the Council to benefit financially from any above inflation growth achieved in the level of business rates in our area, but the Government also transferred the risk of a fall in business rates to us and the rate in the pound levied is still controlled by the Government.

The BRRS starts with the Government's assumption of the level of Business Rates nationally and sets an amount known as the NDR Baseline. For Guildford the NDR Baseline was set at £30.1million. The Government assessed our baseline funding level at £2.608 million, the difference (£27.534 million) was paid to the Government as a tariff. If Guildford's actual business rate income is higher than the NDR Baseline then the Council pays a levy of 50% of the additional income to central Government.

When we set our 2014-15 budget, we projected the business rate income we would receive and provided this estimate to the government in our NNDR 1 return. At the end of the year, we update the data based on actual income and inform the government in our NNDR 3 return.

The amount we recognise in the Income and Expenditure Statement for business rate income for 2014-15 is the amount we projected on the NNDR1 return, ie, our budgeted amount; however, the amount we actually received (and reported on our NNDR3 return) is recognised in the Collection Fund. The government, has legislated that local authorities reverse the impact on the general fund of any difference in business rate income through the surplus/deficit on the Collection Fund and an adjustment to the Collection Fund Adjustment Account on the Movement in Reserves Statement. The difference between what we estimated and received therefore forms part of the surplus or deficit on the Collection Fund and will be taken into account in setting the budget for 2016-17.

Our estimated business rate income for 2014-15, based on our NNDR1 return was £30.9 million, which was higher than our baseline funding level, so we anticipated paying a levy to the Government. Our levy rate is 50% so we anticipated paying approximately £554,000 and keeping the remaining 50%. However, our actual business rate income, based on our NNDR 3 return was £29.8 million therefore we have calculated we will need to pay a levy of £2,156 to Central Government. We have accrued for the levy payment in our Income and Expenditure Statement for 2014-15. The reduction in our business rate income between estimate and actual relates to a significant increase in the provision for business rate appeals.

The provision for appeals is an allowance for reductions in business rates payable because of appeals made by the rate payer to the Valuation Office (VO) in 2014-15. We have no control over these appeals or the timescale within which they are heard. The Council has calculated a total provision of £8.2million for appeals is required as at 31 March 2015, of which the Council's share is £3.291million (40%). This is a total increase of £4.3million (Council's 40% share, £1.7million) from the amount recognised at 31 March 2014. The increase is due to a significant number of appeals lodged before the national deadline of 31 March 2015 for businesses to make appeals to their 2010 valuation, and a provision of £2.6million in respect of Virgin Media appealing to have their cables moved to the VOA central list from 1 April 2010. The inclusion of the appeals provision in our Collection Fund has resulted in a deficit on the Collection Fund in relation to Business Rates of £4 million.

Housing Revenue Account (HRA)

The Statement of Accounts contains details of the HRA income and expenditure, which is ringfenced from the General Fund. We reported the HRA outturn to the Executive on 11 June 2015 and the report is available on the Council's web site, www.guildford.gov.uk at [item 6](#).

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The table below shows the main variances between the budgeted and actual operating surplus for 2014-15 under the key headings.

Housing Revenue Account	2014-15 Budget	2014-15 Actual	Variance
	£000	£000	£000
Rental Income	(30,297)	(30,555)	(258)
Other Income	(1,684)	(1,720)	(36)
Total income	(31,981)	(32,275)	(294)
Expenditure on Housing Services	10,084	9,372	(712)
Depreciation	5,294	5,952	658
Revaluation	0	(22,462)	(22,462)
Other expenditure	770	501	(269)
Interest payable and receivable	4,987	4,899	(88)
Surplus for the year	(10,846)	(34,013)	(23,167)
HRA balance brought forward	(2,500)	(2,500)	0
Surplus for the year	(10,846)	(34,013)	(23,167)
Transfers to other reserves	10,846	34,013	23,167
HRA balance carried forward	(2,500)	(2,500)	0

At year end we transferred £2.5 million to the reserve for future capital programmes and £8.67 million to the new build reserve. The surplus on revaluation was transferred to the capital adjustment account in line with the CIPFA code of practice. The HRA working balance at year-end remains at £2.5 million.

The income budget was prepared using the Government's guidance on rent increases of RPI plus 0.5 per cent. This resulted in an average rent increase of 3.91% and an average actual rent of £109.47 per week.

Rental income was £258,000 (0.85%) higher than estimated. A cautious estimate of rental income, reflecting the impact of the Government initiative to reinvigorate Right to Buy (RTB) contributed to this position, along with a prudent assessment of the number of properties held vacant. During 2014-15, we re-let a number of tenancies at formula rent increasing the amount of rental income generated against the budgeted position.

Expenditure on employees and repair and maintenance was lower than estimated contributing to the overall reduced expenditure on Housing Services.

Lower than budgeted interest rates have resulted in a reduced interest payable charge on the variable rate element of the loan portfolio financing the HRA. The saving of £23,000 in the interest payable charge, along with increased investment income of £65,000 arising from higher than anticipated reserves, has resulting in a reduction in interest payable and receivable of £88,000.

The Council has clearly stated its ambition to increase the number of affordable homes in the borough and work is underway to bring forward a number of development opportunities. In 2014-15 we completed our first new build properties in 20 years and intend to award other contracts during 2015-16 and with this in mind, we transferred £8.67 million to a new build reserve. We also transferred £2.5 million to the HRA reserve for future capital to support the major investment programme on our existing stock as envisaged in the business plan.

Other Performance during the year

Performance management is a key part of delivering successful services and performance indicators help the Council define and measure progress towards our strategic priorities. Individual service managers attend the Corporate Improvement Scrutiny Committee to present their performance indicators for discussion and comment.

The Council approved a Corporate Plan for the period 2013-2016, available on our website, <http://www.guildford.gov.uk/corporateplan>. This is an essential part of our strategic framework and sets out the vision for the borough for the three years. The Corporate Plan has five themes, which have informed the more detailed service plans. The priorities set out in the plan are the basis and drivers for our performance indicators.

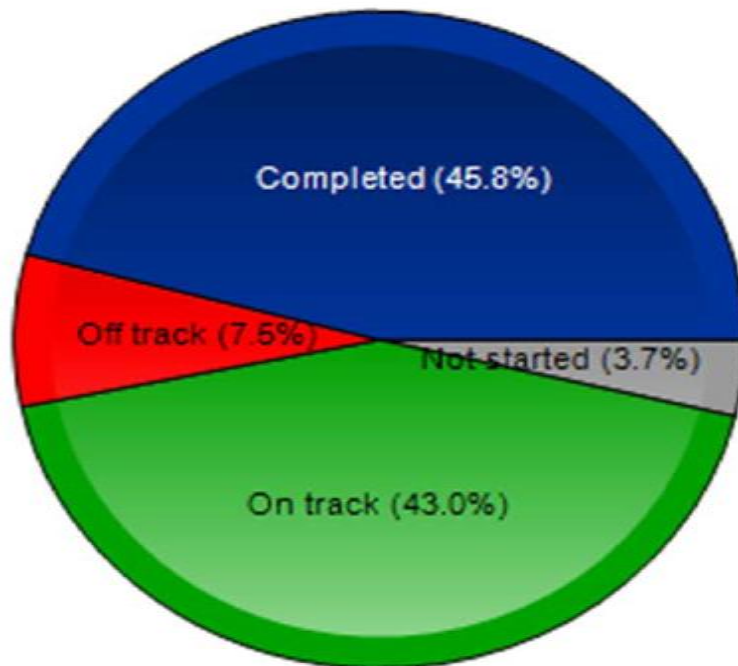

The five themes provide a focus for Council activities and there is a clear link between service delivery and the Council’s corporate objectives. We monitor progress against the objectives in the service plans through regular performance monitoring meetings and reports to the Corporate Management Team and Corporate Improvement Scrutiny Committee.

At 31 March 2015 progress across the five themes is shown below.

This chart shows progress against the Council's main themes

This chart shows Council's projects status

Significant achievements in 2014-15 were:

1. completed 22 new Council homes, a further 43 new Council homes are due for completion by June 2015. These are the first HRA properties built by the Council in over 20 years.
2. enabled the completion of 37 new affordable homes with our housing association partners and have planning permission in place for a further 275 affordable homes, including 4 flats on Council owned land
3. brought 4 long term empty homes in the borough back into use
4. delivered 5 new gypsy and traveller pitches at Ash Bridge
5. invested over £6.8 million maintaining and improving tenants' homes
6. worked with Surrey County Council (SCC) to produce the 'Surrey Transport Plan: Guildford Borough Draft Local Transport Strategy and Forward Programme –Part A' and continue to work with SCC to develop Part B which will set out a coherent multi-modal transport strategy and programme
7. consulted on a new draft local plan and delivered a joint draft Strategic Housing Market Assessment (SHMA) with Waverley and Woking Borough Councils
8. developed a preliminary Community Infrastructure Levy (CIL) charging policy and consulted on the charging schedule
9. developed plans for the Clay Lane Link road on Slyfield and consulted with local residents on the scheme
10. successfully obtained Housing Zone status for the Slyfield Area Regeneration site and made good progress with Thames Water to agree a memorandum of understanding on working together to take the development forward

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

11. made good progress implementing the homelessness strategy agreed in 2013: 94% of actions were either complete or on track when the first year review of the strategy was undertaken in October 2014
12. worked with 137 families under the family support programme and successfully turned 100% of families around
13. worked with the University of Surrey to secure funding from the Local Enterprise Partnership (LEP), Enterprise M3 to explore how 5G technology can help Guildford businesses and continued to support the roll out of superfast broadband across the borough
14. raised and match funded £101,000 for Guildford Philanthropy; a community fund to support vulnerable and disadvantaged groups and individuals, particularly focussing on improving access to education, training and skills
15. developed and agreed a public health and wellbeing strategy
16. continued to work with and support our social enterprises including piloting a street cleansing service
17. opened a new aerial adventure course at Stoke Park
18. signed an agreement with Action Surrey to deliver the Green Deal in Guildford
19. entered into a development agreement with LandSecurities for the redevelopment of North Street and are making good progress towards the agreement of the financial condition on which the development will proceed
20. achieved the purple flag accreditation for Guildford town centre in partnership with the business improvement district, Experience Guildford
21. secured premises on the Midleton industrial estate for a business incubator unit with support funding from Enterprise M3 LEP
22. undertook a review of the Council's constitution and governance arrangements and implemented a new procurement strategy
23. kept council tax below inflation for 2015-16 and maintained council tax and business rates collection rates at over 99%
24. identified £0.9million savings and £1million of additional income for the 2015-16 budget with plans in place for a further £2.4million savings and additional income for the period 2016 to 2019
25. Invested £7million of the £25million fund set up for the Council's Asset Investment Strategy to increase the Council's investment property portfolio and purchase additional investment property assets, achieving £0.4 million additional net rental income for the general fund
26. expanded our customer service centre to include the planning reception
27. implemented a new online payments and receipting system with Elmbridge BC, Epsom & Ewell BC and Mole Valley DC
28. completed the 3 Fundamental Service Review (FSR's) of the Street Cleansing, Parking and Planning Services
29. retained our Aa1 credit rating with Moody's following a further inspection

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Over recent years, the Council has undertaken a programme of service challenges and senior management restructures. This has reduced our staffing levels as shown in the table below.

	Full time equivalent (FTE) number of staff			
	2012	2013	2014	2015
Office Based Staff	502.7	480.4	530.7	490.2
Manual Staff	232.2	240.0	182.6	214.8
Total	735.0	720.4	713.4	705.0

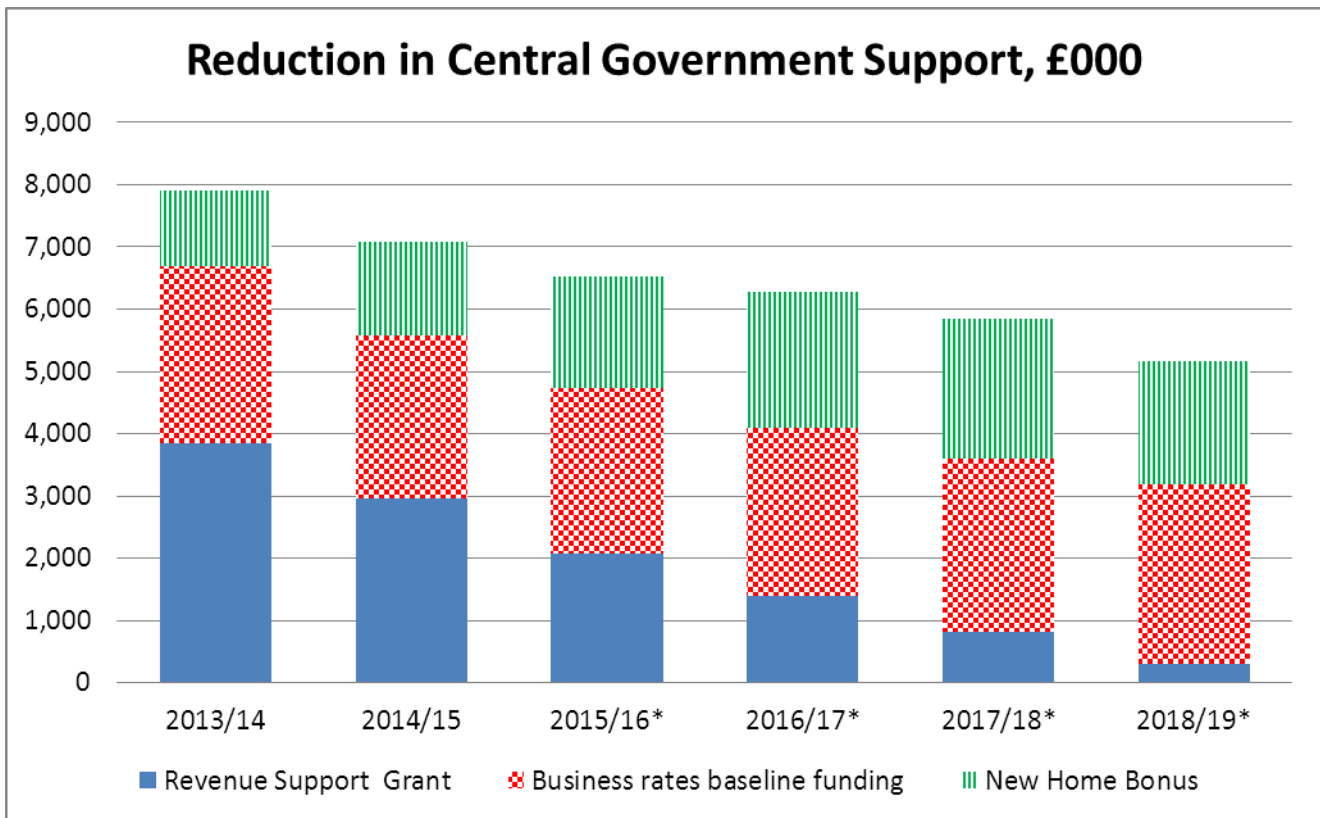

The Council collects performance information in relation to staff sickness absence and monitors the data. Due to the high level of manual staff compared to neighbouring authorities, the Council’s sickness absence rates are higher than average, an issue which the Council is tackling. The graph below shows the sickness absence performance of the Council for the past two years.

Issues affecting the Council’s Future

My Chief Finance Officer’s report on the 2015-16 Budget, presented to Council on 11 February 2015, is on our website (www.guildford.gov.uk), [agenda item 14](#) . This report contains an overview of local government funding, the economic outlook and their impact on Guildford Borough Council.

The economic situation continues to pose a significant risk. The level of Central Government support to Guildford Borough Council has been reducing as the Government addresses the national deficit. The chart below shows the change in Central Government funding since 2013-14.

Interest earnings, whilst no longer form a significant source of income, are still estimated to be approximately £0.5 million (net) and the preservation of our capital whilst maximising our income is of paramount importance.

Our medium term projections show a continuing reduction in Central Government support to 2018-19. The 2014 Autumn Statement projected further cuts to departmental expenditure limits beyond 2015-16. Analysis shows that this is likely to have a cumulative impact of around 10.6% between April 2016 and March 2019.

Many of the priorities within the corporate plan involve significant investment in services, infrastructure and housing to deliver the outcomes.

A 10-year capital strategy is being developed with the aims of realising the Council’s Corporate Plan, raising the quality of life for residents and improving the long-term financial planning process. The first five years of the capital strategy are effectively the capital programme. The capital programme is significant but includes investment in key projects to support our corporate plan such as:-

- Redevelopment of North Street
- Investment in affordable houses
- Investment in new social housing (HRA)
- A new link road at Clay Lane, Slyfield
- Pedestrian and cycling routes around the town
- Funding for transport schemes
- Development of Guildford Castle and Museum
- Replacement of the roof at Spectrum
- Upgrading of Woodbridge Road Sports Ground
- Acquisition of new burial ground

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- Investment in property under the asset investment strategy
- Increasing the car parking provision in the town
- Rebuilding the crematorium

To finance the capital strategy, a variety of funding sources, such as capital receipts, capital reserves, revenue contributions, S106 contributions and borrowing will be required. Unless the Council is able to generate capital receipts, it will need to borrow from its own internal resources, or the market. Any borrowing will have a direct impact on the revenue budget, as there is a requirement to charge a minimum revenue provision (MRP) for the use of borrowing.

Growth included within the revenue budget for 2015-16 also supports the delivery of the Corporate Plan. The growth arising from investment in services to meet the Corporate Plan for 2016-17 to 2018-19 has been included in the medium term financial plan. The main areas of investment to support our corporate plan include:

- Investment in our waste and recycling services
- Investment to support improvement in our customer services
- Continued investment in the family support programme
- Further infrastructure modelling and consultation relating to the local plan
- Investment in upgrading facilities at Woodbridge Road Sports Ground
- Investment in our parks

We expect a moderate increase in New Homes Bonus (NHB) in the medium term. This is based on expected completions and hard commitments generated in 2014-15; however, our budget and medium term financial plan assumes that any increase in NHB is transferred to reserves to finance one off short to medium term revenue projects or capital projects and therefore does not affect the council tax calculation or the budget gap identified below. This is because NHB funding is only available for six years and so it would not be prudent to rely on the income to finance ongoing revenue expenditure. We expect that our NHB income will start to fall in 2018-19 unless any new developments are identified; however, as the Local Plan is developed we anticipate being able to change this assumption.

As part of the drive to continue to deliver services with fewer resources, the Council is undertaking a transformation programme to remodel services, achieve savings and increase income to achieve a sustainable financial future. In addition, we undertook a business planning exercise in 2015-16 to identify transformation and other savings for the medium term. Since 2010-11, the Council has generated a total of £6.0 million in savings and £3.6 million in additional income.

There is a gap between projected income and expenditure over the period 2016-17 to 2018-19 which we estimate to be approximately £4 million over the plan period (to 2018-19). It includes an assumed 87% (£1.8 m) reduction in Revenue Support Grant (RSG) over the period to 2019-20. The exact gap is hard to identify due to the Government's next Comprehensive Spending Review, which will impact from 2016, and should give more information about the level of reduction in Government support, including RSG.

The Council is continuing to pursue a programme of transformation to address the budget gap and ensure a financially sustainable future. The transformation programme has three strands:

- i. Commercial / traded services
- ii. Asset investment
- iii. Fundamental service reviews.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Financial Risks

The Council faces many financial risks, the major ones are explained below.

1. The national economic situation continues to affect the Council, in particular,
 - Loss of interest from investments arising from bank base rates remaining at a low level for longer than expected
 - Increase in housing benefit claimants and bad debts
 - Potential increase in homelessness
 - Loss of income from Fees and Charges
 - Loss of rental income on investment properties
 - Higher than expected cuts in central government support following the 2015 general election
2. The Council has embarked on a transformation programme to deliver savings and income generation; there is a risk that the programme will not be delivered on target.
3. Universal credit is still to come into effect. Key staff may decide to look for other jobs and leave whilst the Council is managing the run down to 2017 (when housing welfare costs are earmarked for removal from Council business). It is possible that new burdens grant funding will not cover all of the Council's run-down expenses (for example communications strategy and redundancy costs). The welfare changes will also affect the Council through their effects on vulnerable people where there is likely to be an increase in demand for services such as homelessness and housing advice.
4. Businesses and Council Tax payers now have the right to request payment of their bill by 12 instalments instead of 10. If large numbers of payers take this option it will adversely affect cash flow and therefore interest receipts.
5. There continues to be volatility in our business rate income due to voids, appeals, revaluations and bad debts. This uncertainty makes it difficult to budget accurately for business rate income and close monitoring through the year is crucial to identify any shortfalls at an early stage. If a large business chose to close or relocate away from Guildford, it would adversely affect our income.
6. It is clear from the continued economic difficulties experienced in the UK, Europe and the USA and the statements made by the Chancellor of the Exchequer in the 2014 Autumn Statement that the 2015 CSR will bring further government funding reductions for local authorities.
7. The Council is likely to embark on two major regeneration schemes during the medium term budget period; North Street and Slyfield. Taking both schemes forward will have significant financial risks for the Council. Officers are currently looking at alternative legal structures to help us manage those risks.

Auditors remuneration

Details relating to the remuneration of Auditors of the Council are shown in note 34 to the Statement of Accounts. The auditors did not undertake any other work outside of their core audit for the Council.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Conclusion

The Council has been able to maintain a high level of performance in the delivery of its services during 2014-15, and at the same time maintain its reserves and provisions to a level adequate to meet all known liabilities and invest in transformational change.

There are significant challenges for us in the future. The Government continues to reduce local authority funding as part of its austerity programme and we are starting to prepare for the inevitable changes to our revenue support grant. The broader welfare reform agenda is also likely to put pressure on Council services, particularly in the area of housing and homelessness.

The Council is well placed to meet these challenges and has a programme of transformational changes and fundamental service reviews in place to deliver savings for future years.

Sue Sturgeon, CPFA
Chief Financial Officer
30 June 2015

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

MOVEMENT IN RESERVES STATEMENT (MIRS)

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (that is those that can be applied to finance expenditure or reduce local taxation) and other reserves. The surplus / (deficit) on the provision of services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes. The net increase /decrease before transfers to earmarked reserves line shows the statutory General Fund balance and Housing Revenue Account balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

2013 - 14

The usable reserves can be classified into the following categories:

- earmarked reserves – providing financing for future expenditure plans, commitments and possible liabilities (see note 13)
- general balances (General Fund Balance and Housing Revenue Account) – available balances to cushion the impact of uneven cash flow and a contingency for unexpected events
- capital receipts and contributions – the balance of proceeds from the sale of assets and contributions received that have not been used to fund new capital expenditure but are set aside to fund future capital expenditure
- major repairs reserve – the balance of depreciation charged to the HRA that has yet to be used to fund expenditure on HRA assets

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

BALANCE SHEET

The Balance Sheet shows the value as at 31 March of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) match the reserves held by the Council. Reserves are reported in two categories. The first category of reserves is usable reserves, that is those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement in the line called *Adjustments between accounting basis and funding basis under regulations*.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources that are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (that is borrowing) to the Council.

2013-14		2014-15
£000		£000
OPERATING ACTIVITIES		
25,406	Net surplus on the provision of services	36,622
14,543	Adjustments for non-cash movements (Note 22)	(8,753)
(18,750)	Adjustments for items included in the net surplus that are investing and financing activities (Note 22)	(9,080)
21,199	Net cash flows from Operating Activities	18,789
INVESTING ACTIVITIES		
(26,548)	Payments for additions to long term assets	(20,811)
(85,943)	Payments for purchase of investments	(168,107)
-	Other payments for investing activities	(407)
17,767	Proceeds from the disposal of long term assets	7,198
67,493	Proceeds from disposal of investments	130,972
1,550	Other receipts from investing activities	-
(25,681)	Net cash flows from Investing Activities	(51,155)
FINANCING ACTIVITIES		
27,500	Cash receipts of short and long-term borrowing	54,000
3,702	Other receipts from financing activities	2,342
(27,732)	Repayments of short and long-term borrowing	(34,234)
3,470	Net cash flows from financing activities	22,108
(1,012) Net decrease in cash and cash equivalents		
20,306	Cash and cash equivalents at the beginning of the reporting period	19,294
19,294	Cash and cash equivalents at the end of the reporting period (Note 18)	9,036

The other receipts from financing activities relate to council tax and business rates adjustments for billing authorities.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

NOTES TO THE ACCOUNTS

1. EVENTS AFTER THE BALANCE SHEET DATE

The Statement of Accounts was authorised for issue by the Chief Financial Officer on 30 June 2015. Events taking place after this date are not reflected in the financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2015, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

2. MATERIAL ITEMS OF INCOME AND EXPENSE

The Council's asset revaluation programme gave rise to an increase of £82 million in the valuation of property, plant and equipment in 2014-15, of which £22 million relating to council dwellings was included in the surplus on provision of services in the CIES to reverse losses charged to it in previous years. See HRA note 9. The remaining £60 million was included in Other Comprehensive Income and Expenditure in the CIES, and recognised in the Revaluation Reserve.

Also included in Other Comprehensive Income and Expenditure was a charge of £22 million relating to remeasurements of the net defined benefit liability, recognised in the Pensions Reserve.

All of these items are reversed out of the Movement in Reserves Statement as adjustments between accounting basis and funding basis under regulations and therefore have no impact on the General Fund and HRA balances.

Cultural and Related Services income in the CIES includes £2.8 million received from developers under Section 106 of the Town and Country Planning Act 1990, which have been transferred to earmarked reserves in the MIRS and will be used to fund revenue and capital expenditure on various Special Protection Area (SPA) sites.

3. RECONCILIATION WITH AMOUNTS REPORTED INTERNALLY

The analysis of income and expenditure by service on the face of the CIES is that specified by the Service Reporting Code of Practice. However, decisions about resource allocation are taken by the Council's Executive on the basis of budget reports analysed across Service Units.

These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular:

- no charges are made for revaluation and impairment losses in excess of the balance on the Revaluation Reserve, which are charged to services in the CIES
- the cost of retirement benefits (payment of employer's pensions contributions) is based on cash flows rather than current service cost of benefits accrued in the year
- gross expenditure and income (including recharge income) on support services are reported within the appropriate Service Unit. Support services charges are also included within the relevant service costs.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The income and expenditure of the Council's principal Service Units recorded in the budget reports for the year is as follows:

2014-15	Business Systems	Corporate Development	Economic Development	Financial Services	Health and Community Care	Housing Advice Services	Human Resources	Legal and Democratic Services	Neighbourhood and Housing Management	Operational services	Parks and Leisure	Planning Services	Revenues and Payments	Housing Revenue Account	Total

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

4. OTHER OPERATING EXPENDITURE

2013-14	2014-15
£000	£000
1,224 Parish council precepts	1,261
560 Payments to the government Housing Capital Receipts Pool	615
<u>(11,386) Gains on the disposal of non-current assets</u>	<u>(4,026)</u>
(9,602)	(2,150)

The gain on disposal of non-current assets for 2013-14 includes a £10.4 million gain on the sale of the Bellerby Theatre development site, which was sold for a market value of £14 million. The carrying value of the property included in the site, measured primarily at existing use value, was £3.7m.

The gains on disposal in 2014-15 relate primarily to the sale of council dwellings under the right to buy and equity share schemes, and the sale of land at White Hart Court for the provision of social housing.

5. FINANCING AND INVESTMENT INCOME AND EXPENDITURE

2013-14	2014-15
£000	£000
5,049 Interest payable and similar charges	5,149
2,838 Net interest on the net defined benefit liability	3,017
(933) Interest receivable and similar income	(1,404)
Income and expenditure in relation to investment properties and	
<u>(4,861) changes in their fair value</u>	<u>(8,327)</u>
2,093	(1,565)

More detail in relation to investment property is provided in note 16.

6. TAXATION AND NON SPECIFIC GRANT INCOME

2013-14	2014-15
£000	£000
(9,197) Council tax income	(9,505)
(1,870) Non domestic rates income and expenditure	(2,326)
(5,383) Non-ringfenced government grants	(5,154)
<u>(854) Capital grants and contributions</u>	<u>(1,882)</u>
(17,304)	(18,867)

The non-domestic rates income and expenditure line above includes the following:

2013-14	2014-15
£000	£000
27,008 Tariff	27,533
531 Levy	2
<u>(29,409) Retained income</u>	<u>(29,861)</u>
(1,870)	(2,326)

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

7. TRADING OPERATIONS

The Council has established four trading units where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the Council or other organisations. Details of these units are as follows:

	2014-15 Turnover £000	Expenditure £000	Surplus/(Deficit) £000	2013-14 Turnover £000	Expenditure £000	Surplus/(Deficit) £000
Building maintenance	3,025	3,085	(60)	2,798	2,754	44
Fleet Management	2,470	2,126	344	2,324	2,384	(60)
Stores	133	136	(3)	121	120	1
Vehicle Maintenance	787	833	(46)	830	826	4

The net surplus on trading operations is included in the Financing and Investment Income and Expenditure line of the CIES.

8. RELATED PARTIES

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

UK Central Government

UK Central Government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework, within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (for example council tax bills, housing benefits). Grants received from Government departments are set out in note 12.

Councillors and Officers

Councillors have direct control over the Council's financial and operating policies. The total of councillors' allowances paid in 2014-15 is shown in Note 9. The Council paid grants totalling £45,184 to voluntary organisations in which a number of elected councillors had an interest. In addition, the Council paid grants totalling £521,492 to voluntary organisations in which a number of councillors were acting as a Borough Council nominee. The Council gave support totalling £284,242 to the Citizens Advice Bureaux in which one councillor had an interest and three councillors were acting as Borough Council nominees. In all instances, the grants were made with proper consideration of declarations of interest and the relevant councillors, although able to take part in any discussion relating to these grants, were excluded from voting. The Council paid a grant of £22,840 to a voluntary organisation in which one, senior officer disclosed an interest.

9. COUNCILLORS' ALLOWANCES

2013-14 £		2014-15 £
227,859	Basic Allowance	230,802
60,534	Special Responsibility Allowance	63,603
3,579	Mileage and Subsistence	3,954
291,972		298,359

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The amount paid to each councillor is published annually on the Council's website, at <http://www.guildford.gov.uk/article/5128/Councillors---allowances>

10. OFFICERS' REMUNERATION

The following table sets out the Senior Officers' emoluments for 2014-15, where the salary is between £50,000 and £150,000 per year.

Postholder	Note	Salaries, fees and Allowances	Other non salary payments	Lump sum in respect of car mileage, telephone etc.	Termination Payments	Pension Contribution	Car lease/ other benefits	Total

	2013-14	59,370	-	1,834	-	8,668	-	69,872
Head of Parks and Leisure Services	2014-15	60,218	-	737	-	8,792	6,998	76,745
	2013-14	58,193	-	731	-	8,496	6,734	74,154

1. These posts have now been deleted as part of a senior management restructure.
2. The post of Executive Head of Governance has been covered under a consultancy contract with Venture Legal Consulting Ltd during the year. The total fees, paid in respect of performing the duties of this post were £155,161. This includes a payment of £3,450 in respect of the European Elections held in 2014, which was reimbursed by the Treasury (£152,227 agency fees in 2013-14).
3. The post of Head of Planning Services has been covered under a consultancy contract with Penna plc for part of the year. The total fees paid in respect of performing the duties of this post were £86,309.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

4. This postholder took early retirement in the interest of efficiency of the service.
5. Termination payments cover payments in respect of redundancy settlements and payments in lieu of notice.
6. The other non-salary payment in 2013-14 is for work relating to the Surrey County Council elections, reimbursed by Surrey County Council.

The Council's other employees receiving more than £50,000 remuneration for the year, which includes termination payments but excludes employer's pension contributions, were paid the following amounts:

Remuneration Band	2014-15 Number of Employees	2013-14 Number of Employees
£50,000 - £54,999	16	12
£55,000 - £59,999	8	12
£60,000 - £64,999	4	0
£65,000 - £69,999	2	1
£75,000 - £79,999	0	1
£85,000 - £89,999	2	0
£105,000 - 109,999	1	0

The numbers of exit packages with total cost per band and total cost of the compulsory and other redundancies are set out in the following table.

Exit Package cost band (inc. special payments)	Number of compulsory redundancies		Number of other departures agreed		Total number of exit packages by cost band		Total cost of exit packages in each band

Less: amounts included above provided for in previous year							(110,296)	(208,992)
Add: Amounts provided for in CIES not included in bandings							61,281	110,296
Total cost included in CIES							607,166	582,373

The Comprehensive Income and Expenditure Statement (CIES) includes a provision of £61,281 for exit packages which were agreed before the year-end but not payable until after 31 March

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

2015. These costs are not included in the bands.

Payments shown in respect of redundancies include both redundancy payments and additional amounts paid to the Pension Fund, where applicable.

Payments made in respect of other departures agreed include voluntary redundancies, contractual obligations and discretionary payments, relating to people who have left the Council's employment in the interests of efficiency of the service.

11. EXTERNAL AUDIT COSTS

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors:

2013-14		2014-15
£'000		£'000
<u>76</u>	Fees payable to Grant Thornton with regard to external audit services carried out by the appointed auditor for the year	<u>76</u>
21	Fees payable to Grant Thornton in respect of certification of grant claims and returns	20
<u>97</u>	Total	<u>96</u>

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

12. GRANT INCOME

The Council credited the following grants, contributions and donations to the CIES.

2013-14 £'000		2014-15 £'000
	Credited to Taxation and Non Specific Grant Income	
1,870	Non domestic rates	2,326
	<u>Non-ringfenced government grants</u>	
3,846	Revenue Support Grant	2,963
1,214	New Homes Bonus	1,511
323	s31 grant - Business Rates Retention Scheme	680
854	Capital grants and contributions	1,882
8,107	Total	9,362
	Credited to Services	
21,918	Housing Benefit Rent Allowance subsidy	21,258
15,052	Housing Benefit Rent Rebate subsidy	14,569
658	Housing Benefit Administration	668
555	Supporting People Grant	544
518	Day care and other social services	399
238	Business Rate Collection	251
225	Contributions to grants to voluntary organisations	198
315	Social Care prevention partnership fund	180
94	Recycling	102
557	Other	607
40,130	Total	38,776

Total	25,999	10,423	-	36,422	7,860	-	44,282

Budget Pressures: set up in the year to allow us to manage the budget reduction required over the next five years

Business Rates Equalisation: To be used as appropriate to smooth out the effects of the Business Rates Retention Scheme, including those related to regeneration projects

Capital Schemes: available to fund capital expenditure in future years

Car Parks Maintenance: used to fund repairs, maintenance and improvements in the Council's off street car parks

Carried forward items: this reserve allows the budget for items that we have not completed in the year to be carried forward so they can be finalised in later years without affecting that year's budget

Invest to Save: this reserve funds investment opportunities that will allow us to achieve ongoing savings, and short term increases in revenue costs during periods of transition

Investment Property rent top up: to enable us to credit the revenue account in future years with an amount received in relation to a rent-free period when purchasing an investment property

New Homes Bonus: New Homes Bonus is a general grant that we receive from the UK government. It is not ring-fenced for any specific purpose

Park and Ride: this reserve will be used to fund future park and ride sites

Special Protection Area (SPA) Sites: set up in year to hold s106 income received in relation to various SPA sites

Spectrum: this reserve is available to finance structural repairs and improvements to Spectrum Leisure Centre

Other: consists of 36 reserves with balances of less than £1 million, which have been earmarked for a range of different purposes e.g. insurance, pensions, protection from interest rate movements, legal actions, energy management schemes and Armed Forces Day.

Depreciation

Depreciation is charged on a straight-line basis over the useful life of the asset. The following useful lives and depreciation rates have been used in the calculation of depreciation:

- Council Dwellings – 60 years
- Other Land and Buildings – 5 to 60 years
- Vehicles, Plant, Furniture and Equipment – 3 to 30 years
- Infrastructure – 10 years

Capital Commitments

At 31 March 2015, the Council has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2015-16 and future years budgeted to cost £3.044 million. Similar commitments at 31 March 2014 were £8.781 million.

The major commitments are:

New housing – Gomshall £1.076 million, Lakeside Close, Ash £1.540 million
William Swayne House conversion works - £238,000,
Spectrum steelwork repairs - £130,000

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Revaluations

The freehold and leasehold properties, which comprise the Council's property portfolio, are revalued on a rolling programme that ensures that all property required to be measured at fair value is revalued at least every five years. All of our council dwellings and a proportion of our other operational property have been revalued by the Valuation Office Agency and Wilks Head and Eve, chartered surveyors, on the under mentioned bases in accordance with the Statements of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors. Council dwellings were revalued as at January 2015 and other property as at November 2014. The assets were inspected between April 2014 and March 2015, and the valuer assumed, where relevant, that the properties valued will continue to be in the occupation of the Council for the foreseeable future having regard to the prospect and viability of the continuance of that occupation.

Properties regarded by the Council as operational were valued on the basis of open market value for the existing use or, where this could not be assessed because there was no market for the subject asset, the depreciated replacement cost.

Properties regarded by the Council as non-operational have been valued on the basis of open market value.

All assets of the same type, e.g. car parks, are generally revalued together in one year. We check that there are no material trends in the revaluations that should be applied to any of our other assets.

The sources of information and assumptions made in producing the various valuations are set out in a valuation certificate and report, which also provides assurance that the valuer has reviewed the balance sheet values of the remainder of the Council's property portfolio to give assurance that no class of assets is materially misstated.

The valuation figures incorporated in the accounts are the aggregate of separate valuations of parts of the portfolio, not an apportioned valuation of the portfolio valued as a whole.

The following statement shows the progress of the Council's rolling programme for the revaluation of PPE assets:

	Council Dwellings	Other Land and Buildings	Vehicles, Plant, Furniture & Equipment	Surplus Assets	Total
	£000	£000	£000	£000	£000
Carried at historical cost	-	-	22,195	-	22,195
Valued at fair value as at:					
31-Mar-15	435,577	124,261	-	-	559,838
31-Mar-14	-	35,198	-	-	35,198
31-Mar-13	-	9,376	-	-	9,376
31-Mar-12	-	8,879	-	550	9,429
31-Mar-11	-	2,961	-	-	2,961
Total Cost or Valuation	435,577	180,675	22,195	550	638,997

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

15. HERITAGE ASSETS

Reconciliation of the carrying value of Heritage Assets held by the Council

	Monuments £000	Civic Regalia etc £000	Art Collection £000	Total Assets £000
Cost or Valuation				
At 1 April 2013	892	1,759	697	3,348
Additions	-	-	14	14
At 31 March 2014	892	1,759	711	3,362
Cost or Valuation				
At 1 April 2014	892	1,759	711	3,362
Additions	46	-	12	58
At 31 March 2015	938	1,759	723	3,420

The additions relate to the refurbishment of the Guildhall clock, and the provision of public art works and sculpture in the Borough.

There have been no disposals of heritage assets in the last five years, and no material acquisition costs or other transactions.

Civic Regalia

The Council's collection of civic regalia is held at the Guildhall, and includes such items as the mayor's badge, small and large mace and the civic plate.

Art Collection

The collection comprises more than 550 pieces and small collections. Many objects consist of multiple parts so the number of works comes close to 800. They span more than 250 years and include a plethora of media - oil paintings, watercolours, pastels, etchings, engravings, prints, textiles, ceramics, sculpture and glass.

The Heritage Services Collections Development Policy is available from the Council's Heritage Manager.

The civic regalia and art collection were valued as at March 2012 by Bonhams 1793 Limited, international auctioneers and valuers. The basis of the valuation was for insurance purposes and was based on estimated price of the items if purchased on retail premises.

Museum Collections

Guildford Museum works with local people and other partners to collect, record and care for the Borough's heritage and to promote understanding, enjoyment, and engagement with that heritage through access and learning for all. Its collections contain material of local, regional, national and international importance and form a unique cultural asset and resource for Guildford Borough, its people and its visitors.

The Council does not consider that reliable cost or valuation information can be obtained for the museum collection because of the diverse nature of the assets held and lack of comparable market values.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The heritage asset acquisitions and disposals policies are set out in the published Heritage Service's collections development policy, which the Council reviews every five years. This is a requirement of the national standards scheme for museums, which is managed by Arts Council England. A copy is lodged with other appropriate museums and regional organisations in Surrey and the South East. It is also available on the Council's website.

16. INVESTMENT PROPERTY

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the CIES:

2013-14		2014-15
£000		£000
5,678	Rental income from investment property	6,525
763	Direct operating expenses arising from investment property	717
4,915	Net gain	5,808

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or for repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year:

2013-14		2014-15
£000		£000
84,380	Balance at start of the year	96,187
12,488	Additions	7,476
(625)	Disposals	-
(56)	Net gains/(losses) from fair value adjustments	2,518
96,187	Balance at end of the year	106,181

The addition in 2013-14 relates to the freehold purchase of Liongate House, Ladymead, Guildford. In 2014-15 we repurchased the long leasehold interest of The Billings, Walnut Tree Close, Guildford and 3 units at Midleton Industrial Estate from the Council's tenants. The Council is the freeholder of these properties. The acquisitions were part of the Council's Asset Investment Strategy to increase rental income.

Investment property is valued at open market value and is revalued sufficiently frequently (and at least every five years) to ensure that the balance sheet value is not materially misstated. See note 14 – Revaluations.

17. SHORT TERM DEBTORS

31 March 2014		31 March 2015
£000		£000
309	Central government bodies	403
473	Other local authorities	537
4,306	Other entities and individuals	4,802
5,088	Total	5,742

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

18. CASH AND CASH EQUIVALENTS

Cash comprises cash in hand and demand deposits. Cash will also include bank overdrafts that are repayable on demand and that are integral to the Council's cash management.

Balances classified as 'Cash Equivalents' fit the definition of being short term, highly liquid (that is callable) investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

The net balance of Cash and Cash Equivalents consists of the following elements:

31 March 2014		31 March 2015
£000		£000
6	Cash held by the Council	5
876	Bank current accounts	(51)
18,412	Callable deposits	9,082
19,294	Total Cash and Cash Equivalents	9,036

19. ASSETS HELD FOR SALE

2013-14		2014-15
£000		£000
3,009	Balance at start of the year	520
	Assets newly classified as held for sale:	
591	Property, Plant and Equipment	-
(3,080)	Assets sold	(520)
520	Balance at end of the year	-

Land at White Hart Court was sold in 2014-15 for the provision of social housing.

20. SHORT TERM CREDITORS

30 March 2014		30 March 2015
£000		£000
4,188	Central government bodies	4,665
3,805	Other local authorities	5,772
14,072	Other entities and individuals	10,276
22,065	Total	20,713

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

21. PROVISIONS

	Outstanding Legal Cases £000	NDR Appeals £000	Other Provisions £000	Total £000
Balance at 1 April 2013	187	-	867	1,054
Additional provisions made	15	1,560	215	1,790
Amounts used	11	-	651	662
Unused amounts reversed	-	-	110	110
Balance at 31 March 2014	191	1,560	321	2,072
Additional provisions made	-	2,228	304	2,532
Amounts used	3	496	263	762
Unused amounts reversed	-	-	20	20
Balance at 31 March 2015	188	3,291	342	3,821

The Council's provisions consist of six items totalling £3,821,458 (£2,071,877 in 2013-14).

Outstanding Legal Cases

This relates to search fees, which, subject to legal action, may have to be repaid.

NDR Appeals

The NDR appeals provision was set up to cover the Council's share of the estimated reduction in business rates collectable due to rating appeals. It was calculated using information provided by the Valuation Office Agency about outstanding appeals, and our historical knowledge of the likely success rate of these appeals. A contribution of £5.569 million was made from the Collection Fund, and £1.241 million of revaluation list amendments were charged against the provision, but only the Council's 40% share is shown here. The remainder is shared between central government (50%) and Surrey County Council (10%) and is reflected in the balance sheet in the Council's net creditors with them. It is expected that the appeals will be settled over the next five years.

Other provisions

All other provisions are individually insignificant.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

22. CASH FLOW STATEMENT – OPERATING ACTIVITIES

The cash flows for operating activities include the following items:

2013-14	2014-15
£000	£000
919 Interest received	991
(4,981) Interest paid	(5,129)

The surplus on the provision of services has been adjusted for the following non-cash movements:

2013-14	2014-15
£000	£000
11,083 Depreciation	11,576
(9,183) Revaluation gains on Property, Plant & Equipment	(22,146)
198 Amortisation of intangible assets	241
421 Increase / (decrease) in creditors	(2,943)
1,953 (Increase) / decrease in debtors	(829)
(163) (Increase) / decrease in inventories	2
2,615 Movement in pension liability	2,180
6,545 Carrying amount of non-current assets sold	3,223
1,074 Other adjustments	(57)
14,543	(8,753)

The surplus on the provision of services has been adjusted for the following items that are investing and financing activities:

2013-14	2014-15
£000	£000
(854) Capital grants and contributions credited to surplus on the provision of services	(1,882)
(17,896) Proceeds from the sale of non-current assets	(7,198)
(18,750)	(9,080)

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

TECHNICAL NOTES TO THE ACCOUNTS

The following notes are more technical in nature and provide additional accounting detail supporting the primary statements and notes.

23. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

2014-15	Usable Reserves					
	General Fund Balance £000	Housing Revenue Account £000	Capital Receipts reserve £000	Major Repairs Reserve £000	Capital Contributions Unapplied £000	Movement in Unusable Reserves £000
Adjustments primarily involving the Capital Adjustment Account:						
Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement (CIES):						
Charge for depreciation of non-current assets	5,624	5,952	-	-	-	(11,576)
Revaluation (gains)/losses on Property Plant and Equipment	322	(22,468)	-	-	-	22,146
Movements in the market value of Investment Properties	(2,518)	-	-	-	-	2,518
Amortisation of intangible assets	236	5	-	-	-	(241)
Revenue expenditure funded from capital under statute	4,157	-	-	-	-	(4,157)
Amounts of non-current assets written off on disposal or sale as part of the gain on disposal to the CIES	19	3,204	-	-	-	(3,223)
Insertion of items not debited or credited to the CIES:						
Statutory provision for the financing of capital investment	(434)	(210)	-	-	-	644
Capital expenditure charged against the General Fund and HRA balances	(1,093)	(3,313)	-	-	-	4,406

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1 April 2007, the date that the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

2013-14		2014-15
£000		£000
67,152	Balance at 1 April	70,012

(1,285)	Difference between fair value depreciation and historical cost depreciation	(1,583)
(1,343)	Accumulated gains on assets sold or scrapped	(622)
(2,628)	Amounts written off to the Capital Adjustment Account	(2,205)
70,012	Balance at 31 March	127,905

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the CIES (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The account contains accumulated gains and losses on investment properties and gains recognised on donated assets that have yet to be consumed by the Council.

The account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 25 provides details of the source of all the transactions posted to the account, apart from those involving the Revaluation Reserve.

361,782	Balance at 31 March	388,045

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the CIES as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

4,464 Employer's pensions contributions and direct payments to pensioners payable in the year	5,399
(70,583) Balance at 31 March	(95,139)

25. CAPITAL EXPENDITURE AND CAPITAL FINANCING

The table below shows the total amount of capital expenditure incurred in the year together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed.

2013-14	2014-15
£'000	£'000
204,382 <i>Opening Capital Financing Requirement</i>	220,159

Increase in in underlying need to borrow (unsupported by government financial assistance)	

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

26. LEASES

Council as Lessee

Finance leases

The Council has acquired a number of assets under finance leases. They are included on the Balance Sheet at the following net amounts:

2013-14		2014-15
£'000		£'000
1,993	Council Dwellings	2,303
9,861	Other Land & Buildings	10,209
675	Investment Property	-
12,529		12,512

The Council paid premiums at the start of the property leases and there are no more payments due.

Council as Lessor

Finance leases

The Council has leased out a number of investment properties on finance leases with remaining lease terms of 60 years or more. In each case a premium was paid to the Council by the lessee in order to enter into the lease and there are no future minimum lease payments due.

Operating leases

The Council leases out operational property under operating leases primarily for the provision of social housing and community services such as sports facilities. It also leases out investment property under operating leases.

The future lease payments receivable under non-cancellable leases in future years are:

2013-14		2014-15
£'000		£'000
6,701	Not later than one year	7,131
23,306	Later than one year and not later than five years	28,605
303,115	Later than five years	297,483
333,122		333,219

The lease payments receivable in 2014-15 were £7,359,112 (£6,568,110 in 2013-14).

27. DEFINED BENEFIT PENSION SCHEME

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments that need to be disclosed at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension Scheme administered by Surrey County Council – this is a funded defined benefit scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets in the long term.

The scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the Pension Board of Surrey County Council. Policy is determined in accordance with the Pension Fund Regulations. The investment managers of the Fund are appointed by the Board and consist of eleven investment fund managers plus private equity fund managers.

The principal risks to the Council of the scheme are the longevity of members, statutory changes to the scheme, structural changes to the scheme (i.e. large scale withdrawals from the scheme), changes to inflation, bond yields and the performance of equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

The scheme is a multi-employer plan. Employers are required by regulation to meet the minimum contributions as set out in the Rate and Adjustments Certificate for the relevant actuarial valuation. For 2014-15 this would be the valuation carried out as at March 2013.

If another entity was to be unable to meet required funding commitments to the Fund and no suitable guarantee was available, either in the form of a bond or a charge on assets or a parent organisation, then any deficit would be spread across existing fund employers.

If the Council were to withdraw from the scheme, the fund actuary would carry out a cessation valuation to calculate its plan liabilities and assets. Any deficit on this valuation would need to be recovered through a final contribution to the fund. Any surplus would not be recoverable.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Transactions Relating to Post-employment Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

2013-14		2014-15
£000		£000
	Comprehensive Income & Expenditure Statement	
	Service Cost	
4,135	Current service cost	4,507
106	Past service cost (including curtailments)	55

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumption about mortality rates, salary levels etc. The County Council fund liabilities have been assessed by Hymans Robertson, an independent firm of actuaries. The Actuary has prepared the figures by applying a 'roll-forward' approach to the last formal valuation, which was as at 31 March 2013.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The main financial assumptions used in their calculation have been:

2013-14	2014-15
Mortality assumptions:	
Longevity at 65 for current pensioners:	
22.5 years Men	22.5 years
24.6 years Women	24.6 years
Longevity at 65 for future pensioners:	
24.5 years Men	24.5 years
26.9 years Women	26.9 years
2.8% Rate of Inflation	2.4%
1.5% Rate of increase in salaries	1.5%
2.8% Rate of increase in pensions	2.4%
4.3% Rate for discounting scheme liabilities	3.2%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analyses changes while all the other assumptions remain constant. The assumptions in longevity for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in 2013-14.

Change in Assumptions at 31 March 2015	Approximate % increase to Employer	Approximate monetary amount (£000)
0.5% decrease in Real Discount rate	10%	25,647
1 year increase in member life expectancy	3%	7,354
0.5% increase in the Salary Increase Rate	3%	7,788
0.5% increase in the Pension Increase Rate	7%	17,344

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2016.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service pension schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales). The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits.

The Council anticipates paying £4,901,000 contributions to the scheme in 2015-16.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The weighted average duration of the defined benefit obligation for scheme members is 18.9 years.

The liabilities show the underlying commitments that the Council has in the long run to pay retirement benefits. The total liability of £95.1 million has a substantial impact on the net worth of the Council as recorded in the balance sheet. However, statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy; the deficit will be made good by increased contributions over the remaining working life of employees, as assessed by the scheme actuary.

28. CONTINGENT LIABILITIES

MMI Ltd may claim an amount of up to £588,000 in relation to the company's liability for asbestos induced mesothelioma claims arising on the Council's liability account. During 2012-13 the directors of MMI Ltd triggered the scheme of arrangement, with an initial levy rate of 15 per cent, which the Council has paid. There may be further levies at some time in the future, but there is no indication of when or how much.

29. FINANCIAL INSTRUMENTS

A financial instrument is a contract that gives rise to a financial asset of one entity and a financial liability or equity investment of another entity.

Financial instruments are both financial assets and financial liabilities.

Financial Liabilities

A financial liability is an obligation to transfer economic benefits controlled by the Council. It can be represented by a contractual obligation to deliver cash, financial assets or an obligation to exchange financial assets and liabilities with another entity that are potentially unfavourable to the Council.

Financial liabilities held at the balance sheet date consist of long-term loans with the Public Works Loan Board (PWLB), loans from other local authorities, bank overdraft and trade payables for goods and services received.

Financial Assets

A financial asset is a right to future economic benefits controlled by the Council that is represented by cash, other instruments or a contractual right to receive cash or another financial asset.

There are four classifications for financial assets under the Code of Practice

- loans and receivables
- available for sale
- fair value through profit and loss
- unquoted equity investments held at cost because it is impracticable to determine fair value.

Loans and Receivables (fixed or determinable payments and are not quoted in an active market)

These comprise:

- cash in hand
- bank current and deposit accounts with HSBC
- fixed term deposits with banks and building societies
- loans to other local authorities

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- trade receivables for goods and services delivered.

The Council's portfolio of investments, at the balance sheet date, consist of fixed term deposits, call accounts and notice accounts and are measured at amortised cost. This form of measurement does not change the amount of cash received under the terms of the investment.

Available for sale financial assets (those that are quoted in an active market)

These comprise:

- money market funds and other collective investment schemes
- certificates of deposit and covered bonds issued by banks and building societies
- treasury bills and gilts issued by the UK Government
- bonds issued by multilateral development banks and UK companies
- pooled funds

The Council's investments, at the balance sheet date, consisted of money market funds, corporate bonds, covered bonds, certificates of deposit, and pooled funds, including Payden Sterling Reserve Fund, CCLA property fund, M&G, SWIP, Schrodgers and Funding Circle.

Balances in money market funds and call accounts at the end of the year are shown under 'cash and cash equivalents' in the balance sheet, as they represent highly liquid investments that are readily convertible to known amounts of cash, with an insignificant risk of changes in value.

The Council did not have any investments required to be measured at 'fair value through profit or loss', or any unquoted equity investments.

The portion of long-term liabilities and investments due to be settled within 12 months of the balance sheet date are presented in the Balance Sheet under 'current liabilities' or 'current investments'.

Transaction Costs

Measurement at amortised cost permits transaction costs relating to financial instruments to be attached to the loan or investment and charged to the CIES over the life of the instrument. Where these costs are considered to be immaterial, they can be charged in full to the CIES in the financial year in which they are incurred. The Council adopted this latter approach in 2014-15.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Financial Instruments - balances

The financial assets and liabilities disclosed in the balance sheet are analysed across the following categories:

	Long-term		Short-term	
	31 March 2015 £000	31 March 2014 £000	31 March 2015 £000	31 March 2014 £000
FINANCIAL ASSETS				
<u>Investments</u>				
<u>Loans and Receivables</u>				
- Principal sum at amortised cost	-	-	69,082	39,525
- Accrued interest	-	-	121	55
<u>Available-for-sale investments</u>				
- Principal sum	8,139	-	27,744	27,463
- Accrued interest	11	-	53	78
- Fair value adjustments	-	-	-	-
Total Investments	8,150	-	97,000	67,121
<u>Cash and Cash Equivalents</u>				
<u>Loans and Receivables</u>				
- Cash	-	-	5	882
- Cash equivalents at amortised cost	-	-	3,033	4,753
- Accrued interest	-	-	-	1
<u>Available-for-sale investments</u>				
- Cash equivalents at fair value	-	-	6,049	13,658
Total Cash and Cash Equivalents	-	-	9,087	19,294
Trade receivables (Debtors)	468	64	5,738	4,775

Total Cash Overdrawn	-	-	51	-
Trade payables (Creditors)	-	-	3,051	4,585
TOTAL FINANCIAL LIABILITIES	198,585	193,815	18,437	4,904

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Offsetting Financial Assets and Liabilities

Financial assets and liabilities are set off against each other where the Council has a legally enforceable right to sell off and it intends to either settle on a net basis or to realise the asset and settle the liability simultaneously. The only item offset on the balance sheet is the bank overdraft, which is shown within cash and cash equivalents. The Council had no other financial assets or liabilities subject to an enforceable master netting arrangement or similar agreement.

Gains and Losses

The gains and losses recognised in the CIES in relation to financial instruments consist of the following items:

2013-14					2014-15				
Financial Liabilities (at amortised cost) £000	Financial Assets: Loans and receivables £000	Financial Assets: Available for sale £000	Total £000		Financial Liabilities (at amortised cost) £000	Financial Assets: Loans and receivables £000	Financial Assets: Available for sale £000	Total £000	
5,049	-	-	5,049	Interest expense	5,149	-	-	5,149	
5,049	-	-	5,049	Total expense in Surplus on the Provision of Services	5,149	-	-	5,149	
-	(450)	(440)	(890)	Interest income	-	(459)	(710)	(1,169)	
-	(450)	(440)	(890)	Total income in Surplus on the Provision of Services	-	(459)	(710)	(1,169)	
-	-	(226)	(226)	Gains on revaluation	-	-	(716)	(716)	
-	-	(226)	(226)	Surplus arising on revaluation of financial assets in Other Comprehensive Income and Expenditure	-	-	(716)	(716)	
5,049	(450)	(666)	3,933	Net (gain)/loss for the year	5,149	(459)	(1,426)	3,264	

Fair Values of Assets and Liabilities

For each class of financial assets and financial liabilities, the Council is required to disclose the fair value of that class of assets and liabilities compared with the carrying amount (amortised cost).

Fair value is defined as the amount for which an asset could be exchanged, or a liability settled, between the parties in an arm's length transaction. The fair value of a financial instrument on initial recognition is generally the transaction price.

Carrying value is defined as the value according to its balance sheet balance.

The Council's long-term loans are carried in the balance sheet at amortised cost.

The Councils' PWLB loans have been discounted at the published interest rates for new PWLB certainty rate loans with an identical remaining term to maturity arranged on 31 March.

Investments consist of loans and receivables, and available for sale. Loans and receivables are carried on the balance sheet at amortised cost, and available for sale at fair value based on

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

market rates for similar instruments with a similar remaining term to maturity on 31 March.

The portion of debt and investments due to be settled within 12 months of the balance sheet date are presented in the balance sheet under short-term liabilities or short-term investments.

No early repayment or impairment is recognised for any financial instrument.

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value. The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The following table shows those financial assets and liabilities where the carrying value and fair values are different.

	Carrying Amount 31 March 2014 £000	Fair Value 31 March 2014 £000	Carrying Amount 31 March 2015 £000	Fair Value 31 March 2015 £000
Financial Liabilities				
Short term borrowing	230	241	15,230	15,230
Long term borrowing	193,815	177,803	198,585	200,066
	194,045	178,044	213,815	215,296
Financial Assets				
Short term investments	67,121	67,121	97,000	97,000
Long term investments	-	-	8,150	8,162
	67,121	67,121	105,150	105,162

The fair value of long-term liabilities is higher than the carrying amount because the Council's portfolio of loans includes fixed rate loans where the interest rate payable is higher than the current rates available for similar loans at the balance sheet date.

30. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The Council has adopted CIPFA's Code of Practice on Treasury Management (and subsequent amendments) and complies with the Prudential Code for Capital Finance in Local Authorities (both revised in November 2011).

As part of the adoption of the Treasury Management Code, the Council approves a Treasury Management Strategy before the commencement of each financial year. The strategy sets out the parameters for the management of risks associated with Financial Instruments. The Council also produces Treasury Management Practices specifying the practical arrangements to follow to manage these risks.

The Treasury Management Strategy includes an Annual Investment Strategy in compliance with the CLG Guidance on Local Government Investments. This Guidance emphasises that priority is given to security and liquidity, rather than yield. The Council's Treasury Management Strategy, together with its Treasury Management Practices are based on seeking the highest rate of return consistent with the proper levels of security and liquidity.

The Council's activities expose it to a variety of financial risks:

- credit risk – the possibility that other parties might fail to pay amounts due to the Council

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- liquidity risk – the possibility that the Council might not have funds available to meet its commitment to make payments
- market risk – the possibility that financial loss might arise as a result of changes in market variables such as interest rates.

Credit risk: Investments

The Council manages credit risk by ensuring that investments are placed with organisations of high credit quality and in line with the approved Treasury Management Strategy. These include commercial entities with a minimum long-term credit rating of A-, the UK government, other local authorities, and organisations without credit ratings, or with a credit rating of below A-, where the Council has received independent financial advice. We have set our high credit quality criteria as A-, however we do have allowance in our Treasury Management Strategy to invest in BBB+ counterparties, but these will be non-specified investments and will be subject to a further review in conjunction with our Treasury Management advisors.

Although credit ratings remain a key source of information, the Council recognises that they have limitations and are imperfect predictors of default, the Council has regard to other measures including credit default swaps and equity prices when selecting commercial entities for investment.

The Treasury Management Strategy also imposes a maximum sum the Council can invest with a financial institution or group of £8 million, other than the UK government. The Council sets limits on investments in certain sectors. A maximum sum for long-term investments (greater than 364 days) is also set.

All investments in 2014-15 were in line with the Council's approved Treasury Management Strategy.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of non-recovery applies to all of the Council's deposits, but there was no evidence at the balance sheet date that this was likely to materialise.

The Council does not hold collateral against any investments.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The table below summarises credit risk exposures of the Councils investment portfolio by credit rating:

Investment type	Credit rating	Long term		Short term	
		31 Mar 15 £000	31 Mar 14 £000	31 Mar 15 £000	31 Mar 14 £000
Term Deposits:	AAA	7,000	-	-	-
	AA+	1,139	-	2,040	-
	AA	-	-	15,500	-
	AA-	-	-	20,000	6,000
	A+	-	-	6,000	6,000
	A	-	-	22,000	37,024
	A-	-	-	8,137	2,500
	BBB+	-	-	2,489	-
Unrated building societies	n/a	-	-	4,000	-
Money Market Funds	AAA	-	-	6,042	13,654
Call Accounts	AA-/A+/A	-	-	3,034	4,753
Investment Funds	n/a	-	-	16,666	15,527
Total Investments		8,139	0	105,908	85,458

Trade Receivables

The Council does not generally allow credit for customers. Of the total debt outstanding, £2.8 million relating to services that the Council has invoiced for is past its due date for payment. The past due amount can be analysed by age as follows:

	£'000
Less than six months	1,795
Six months to one year	201
More than one year	810
	<u>2,806</u>

The Council's credit risk on lease receivables is mitigated by its legal ownership of the assets leased, which can be repossessed if the debtor defaults on the lease contract.

Liquidity risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. The Council has access to borrowing facilities via the Public Works Loans Board (PWLB) and other local authorities and at higher rates from banks and building societies. There is no perceived risk that the Council will be unable to raise finance to meet its commitments.

The Council is exposed to the risk that it will need to refinance a significant proportion of its borrowing at the time of unfavourable interest rates. The Council's strategy is to plan carefully when new loans are taken out and making early repayments where financially advantageous. The risk is also managed by maintaining a spread of fixed rate loans ensuring loans mature at different times.

The Council would only borrow in advance of need where there is a clear business case for doing so.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The maturity analysis of the principal sums borrowed is as follows:

<u>31 March 2014</u> £'000		<u>31 March 2015</u> £'000
	Short Term Borrowing	
230	Less than one year	15,230
	Long Term Borrowing	
230	Over 1 but not over 2 years	230
690	Over 2 but not over 5 years	5,690
45,460	Over 5 but not over 10 years	10,230
40,000	Over 10 but not over 15 years	55,000
50,000	Over 15 but not over 20 years	25,000
32,435	Over 20 but not over 30 years	57,435
<u>169,045</u>	Total Borrowings	<u>168,815</u>

All trade and other payables are due to be paid in less than one year.

Market risk: Interest rate risk

The Council is exposed to risks arising from movements in interest rates on its borrowing and investments. Movement in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects:

- borrowings at variable rates – the interest expense will rise
- borrowings at fixed rates – the fair value of the borrowings will fall
- investments at variable rates – the interest income credited will rise
- investments at fixed rates – the fair value of the investments will fall.

Investments classed as “loans and receivables” and loans borrowed are not carried at fair value, so changes in their fair value will have no impact on the CIES.

Changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services. Movements in fair value of fixed rate investments classed as “available for sale” are reflected in Other Comprehensive Income and Expenditure.

The Treasury Management Strategy aims to mitigate these risks by setting upper limits for fixed and variable interest rate exposures.

If interest rates had been 1% higher (all other variables being constant) the Council would have received approximately £1.1 million more in interest receipts on its investments.

Market Risks: Price Risk

The market prices of the Council's fixed bond investments and its units in collective investment schemes are governed by prevailing interest rates and the market risk associated with these instruments is managed alongside interest rate risk.

The Council's investment in a pooled property fund is subject to the risk of falling commercial property prices. We limit our exposure to pooled property funds to help mitigate this risk. If commercial property prices fall, it would not impact on the General Fund until the investment was sold.

The Council's investment in a pooled equity fund is subject to the risk of falling share prices. If share prices fall, there would be no impact on the General Fund until the investment was sold.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

31. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates. The items in the Council's Balance Sheet at 31 March 2015 for which there is a risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Business Rates	<p>Since the introduction of the Business Rates Retention Scheme effective from 1 April 2013, local authorities are liable for successful appeals against business rates charged to businesses in 2014-15 and earlier years, in their proportionate share.</p> <p>A provision has been recognised for the best estimate of the amount that businesses have been overcharged up to 31 March 2015. The provision has been calculated using the Valuation Office ratings list of appeals and the analysis of successful appeals to date.</p>	<p>If the level of successful appeals varies by 1%, it would increase or decrease the appeals provision by £194,000, which in turn would increase or decrease the deficit on the Collection Fund by £194,000. The Council's share of the increase or decrease would be £77,600, which would increase or decrease the surplus on provision of services in the CIES.</p>
Property, Plant and Equipment (PPE) and Investment property	<p>PPE and investment property are included in the balance sheet at fair value. Chartered surveyors are engaged to provide expert advice in the assumptions to be applied when carrying out the valuations.</p> <p>Individual items of PPE are depreciated over estimated useful lives that are partly dependent upon assumptions about the level of repairs and maintenance that will take place.</p> <p>If the Council were not able to sustain its level of spending on</p>	<p>If the valuations were changed by 1%, it would increase or decrease the value of net assets on the balance sheet by £7.2 million.</p> <p>If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls.</p> <p>Depreciation costs do not affect the Council's overall financial position as they form part of the adjustment between accounting</p>

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
	<p>the repair and maintenance of its assets in the long term the estimated useful life assigned to individual assets would need to be reduced.</p>	<p>basis and funding basis under regulations.</p>
Pensions Liability	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.</p>	<p>The effects on the net pension liability of changes in individual assumptions can be measured. For instance, a 0.5% decrease in the discount rate assumption would result in an increase in the pension liability of £25.647 million. A one-year increase in member life expectancy would result in an increase in the pension liability of £7.354 million. A 0.5% increase in the salary increase rate would result in an increase in the pension liability of £7.788 million and a 0.5% increase in the Pensions increase rate would result in an increase in the pension liability of £17.344 million.</p> <p>During 2014-15, the Council's actuaries advised that the net pensions liability had increased by £24.556 million. This is principally due to falling real bond yields, partially offset by strong asset returns</p>
Debtors	<p>At 31 March 2015, the Council was owed approximately £10 million. A review of significant balances suggested that an allowance for doubtful debts of £4.2 million was appropriate. However, in the current economic climate it is not certain that such an allowance would be sufficient.</p>	<p>If collection rates were to deteriorate, a doubling of the amount of doubtful debts would require an additional £1 million to set aside as an allowance.</p>

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

32. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

For 2014-15 the accounting policy changes that need to be reported relate to:

- IFRS 13 Fair Value Measurement
- Annual Improvements to IFRSs 2011–2013 Cycle
- IFRIC 21 Levies

IFRS 13 is to be applied prospectively and it is not anticipated that any of these accounting standards that have not yet been adopted will have a material impact on the financial statements.

33. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events.

Although there is a degree of uncertainty about future levels of funding for local government the Council has determined that this uncertainty does not indicate that the assets of the Council might be impaired. The factors taken into account in concluding that the Council continues to be a going concern include our level of reserves, level of committed funding, budget and cash for the coming years, and the lack of proposed local government reorganisation.

Critical judgement has been used in identifying how assets are classified on the balance sheet. In particular, some assets that we hold to earn rental income are also held for economic development and regeneration purposes. However, as they are not used in the direct delivery of services they have been classified as investment property.

Also, some assets that are held for their historical interest are classified as property, plant and equipment rather than heritage assets because they are also used to provide a particular service.

The Council has determined that a materiality level of £1 million is appropriate for inclusion of accounting policies and disclosure notes in the Statement of Accounts.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

ACCOUNTING POLICIES

1. General Principles

The Statement of Accounts summarises the Council's transactions for the 2014-15 financial year and its position at the year-end of 31 March 2015. The Accounts and Audit (England) Regulations 2011 require the Council to prepare its annual Statement of Accounts in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2014-15 and the Service Reporting Code of Practice 2014-15, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

2. Accruals of Income and Expenditure (debtors and creditors)

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council
- revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council
- supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet
- expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made
- interest payable on borrowings and receivable on investments is accounted for respectively as expenditure and income to the CIES on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract
- where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

3. Accounting practice for Council Tax and Business Rates

Revenue relating to council tax and business rates is measured at the full amount receivable (net of any impairment losses) as they are non-contractual, non-exchange transactions. Revenue is recognised when it is probable that the economic benefits of the transaction will flow to the Council and the amount of revenue can be measured reliably.

The council tax and business rate income included in the CIES is the accrued income for the year, which consists of :

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- The Council's council tax precept and business rate share from the Collection Fund i.e. the amount billed for the year; and
- The Council's share of the actual council tax and business rate surplus or deficit on the Collection Fund at the end of the current year, adjusted for the Council's share of the surplus or deficit on the fund at the preceding year end that has not been distributed or recovered in the current year.

The latter is not required by regulation to be credited to the General Fund and so is taken to the Collection Fund Adjustment Account and included as a reconciling item in the MIRS on the General Fund balance.

The Council as billing authority recognises a creditor in its balance sheet for cash collected from taxpayers and businesses on behalf of major preceptors but not yet paid to them, or a debtor for cash paid to major preceptors in advance of receiving the cash from council tax payers and business rate payers.

4. Cash and Cash Equivalents

Cash represents cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours; for example call accounts. Cash equivalents are highly liquid investments that are convertible to known amounts of cash within 24 hours and with insignificant risk of change in value, and include money market funds.

The Cash Flow Statement shows cash and cash equivalents net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

5. Material Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement (CIES) or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

6. Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are charged with the following amounts to record the cost of holding non-current assets during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated by the Council on a prudent basis and determined in accordance with statutory guidance. Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision) by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

7. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (for example cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements earned by employees but not taken before the year-end and which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to the appropriate service in the CIES at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment Benefits

Most of the Council's employees are members of the Local Government Pension Scheme administered by Surrey County Council. The scheme provides defined benefits earned as Council employees (retirement lump sums and pensions) to members and is accounted for as a defined benefits scheme where:

- the liabilities of the pension scheme attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – that is an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees
- liabilities are discounted to their value at current prices, using a discount rate of 3.2% (based on the indicative rate of return on high quality corporate bond over a range of periods)
- the assets of the pension fund attributable to the Council are included in the Balance Sheet at their fair value using the following bases:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
 - current service cost - the increase in liabilities as result of years of service earned this year – allocated in the CIES to the services for which the employees worked
 - past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the CIES as part of Non Distributed Costs
 - net interest on the net defined benefit liability, i.e. net interest expense for the Council – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line in the CIES – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability at the beginning of the period – taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments
- Re-measurements comprising:
 - the return on plan assets (excluding amounts included in the net interest on the net defined benefit liability) – the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return – credited to Other Comprehensive Income and Expenditure
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
- Contributions paid to the Surrey County Council Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise because of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

8. Events after the Reporting Period

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

- those that provide evidence of conditions that existed at the end of the reporting period – the Statement of Accounts is adjusted to reflect such events
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

9. Financial Instruments

A Financial Instrument is a contract that gives rise to a financial asset of one entity and a financial liability of another entity.

Financial Liabilities

A financial liability is an obligation to transfer economic benefits controlled by the Council. It can be a contractual obligation to deliver cash or financial assets to another entity and are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions.

They are initially measured at fair value and are carried at their amortised cost.

Annual charges to the Financing and Investment Income and Expenditure line in the CIES for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For the Council's loans, the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Financial Assets

A financial asset is a right to future economic benefits controlled by the Council that is represented by cash or other instruments or a contractual right to receive cash or another financial asset.

The Council uses two types of financial asset:

- loans and receivables – assets that have fixed or determinable payments but are not quoted in an active market
- available-for-sale assets – assets that have a quoted market price and/or do not have fixed or determinable payments.

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council enters a contractual provision of a financial instrument. They are initially measured at fair value, and subsequently measured at amortised cost.

Annual credits to the Financing and Investment Income and Expenditure line in the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument.

The Council's investments are presented in the Balance Sheet as the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the investment agreement.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Where assets are identified as impaired because of a likelihood that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the CIES. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Any gains and losses that arise on the de-recognition of an asset are taken to the Financing and Investment Income and Expenditure line in the CIES.

Available-for-Sale Assets

Available-for-sale assets are recognised on the Balance Sheet when the Council enters a contractual provision of a financial instrument and are initially measured and carried at fair value.

Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the CIES for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (for example dividends) is credited to the CIES when it becomes receivable by the Council.

Assets are shown on the Balance Sheet at fair value. Values are based on the following principles:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis
- equity shares with no quoted market prices – independent appraisal of company valuations.

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain or loss is recognised in the Surplus or Deficit on revaluation of Available-for-Sale Financial Assets. The exception is where we have incurred impairment losses – these are charged to the Financing and Investment Income and Expenditure line in the CIES, along with any net gain or loss accumulated in the Available-for-Sale Reserve.

Where assets are identified as impaired because of a likelihood that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment line of the CIES.

If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

10. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when it is reasonable to

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

conclude that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received

Amounts recognised as due to the Council are not credited to the CIES until conditions attaching to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, attributable revenue grants and contributions are credited to the relevant service line and non-ring-fenced revenue grants and all capital grants are credited to Taxation and Non-Specific Grant Income in the CIES.

Where capital grants or contributions are credited to the CIES, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where a contribution has yet to be used to finance capital expenditure, it is posted to the Capital Contributions Unapplied reserve. Where a grant or contribution has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Contributions Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Where it is uncertain whether a grant or contribution will be used for capital or revenue purposes, the grant will be credited to an earmarked reserve.

11. Heritage Assets

The Council holds various heritage assets, which are held and maintained principally for their contribution to knowledge and culture. Heritage assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to heritage assets. The Council's heritage assets are accounted for as follows:

- Monuments, including Guildford Castle and Chilworth Gunpowder Mills

These assets are ruins for which it is not possible to obtain a current valuation. They are held on the balance sheet at historical cost, i.e. the cost of capitalised works carried out to preserve the buildings, and are not subject to depreciation as they have indefinite lives.

- the art collection held at Guildford House Gallery, and civic regalia held at the Guildhall

Insurance values have been used as a proxy for fair value. The assets are not depreciated because they have indeterminable lives.

- various sculptures and pieces of artwork around the Borough

These assets are held on the balance sheet at historical cost and are not subject to depreciation as they have indeterminable lives.

- the museum collection held at Guildford Museum

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The Council does not consider that reliable cost or valuation information can be obtained for the museum collection because of the diverse nature of the assets held and lack of comparable market values. Consequently, the Council does not recognise these assets on the balance sheet.

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, for example when an item has suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the Council's general policies on impairment – see note 16 in this summary of significant accounting policies.

12. Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

The value of an investment property is initially measured at cost. Thereafter, it is measured at fair value which is based on the amount at which the asset could be exchanged between two separate and knowledgeable parties. Investment properties are not depreciated but are revalued annually according to market conditions at year end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the CIES as are any gains or losses on disposal.

Rentals received in relation to investment properties are credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. Accordingly, any gains or losses are reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account (revaluations and value of assets disposed of) and the Capital Receipts Reserve (proceeds of disposals greater than £10,000).

13. Jointly Controlled Operations and Jointly Controlled Assets

Jointly controlled operations are activities undertaken by the Council in conjunction with other venturers that involve the use of the assets and resources of the venturers rather than the establishment of a separate entity. The Council recognises on its Balance Sheet the assets that it controls and the liabilities that it incurs and debits and credits the CIES with the expenditure it incurs and the share of income it earns from the activity of the operation.

Jointly controlled assets are items of property, plant or equipment that are jointly controlled by the Council and other venturers, with the assets used to obtain benefits for the venturers. The joint venture does not involve the establishment of a separate entity. The Council accounts for its share of the jointly controlled assets, the liabilities and expenses that it incurs on its own behalf or jointly with others in respect of its interest in the joint venture and income that it earns from the venture.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

14. Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, Plant and Equipment (PPE) held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception. There are no further liabilities on any of the leased assets because premia were paid at the inception of the leases.

PPE recognised under a finance lease is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life.

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual provision is made from revenue towards the deemed capital investment in accordance with statutory requirements. Depreciation and impairment losses are therefore replaced by revenue provision in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the CIES as an expense to the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (for example there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

Where the Council grants a finance lease for an item of PPE, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether PPE or Assets Held for Sale) is written off to the CIES, and any premium received is credited to the CIES, as part of the gain or loss on disposal.

The accounting treatment is the same as for PPE disposals described in policy xviii. Property, Plant and Equipment: Disposals and Non-current Assets Held for Sale.

Operating Leases

Where the Council grants an operating lease for an item of PPE or an investment property, the asset is retained in the Balance Sheet. Rental income is credited to the CIES on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (for example, there is a premium paid at the commencement of the lease).

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

15. Overheads and Support Services

The costs of overheads and support services are allocated in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2014-15 (SeRCOP). The total absorption costing principle is used where the full cost of overheads and support services are allocated, with the exception of:

- Corporate and Democratic Core – costs relating to the Council's status as a multi-functional, democratic organisation
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on non-operational properties.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the CIES, as part of Net Expenditure on Continuing Services.

16. Property, Plant and Equipment (PPE)

Assets that have physical substance and are held for use in the production or supply of goods or services or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment (PPE).

Recognition

Expenditure (including any amounts owed to third parties) on the acquisition, creation or enhancement of PPE is capitalised if it is probable that the item of PPE will generate future economic benefits and/or service potential and the cost of the item can be measured reliably. Expenditure that does not enhance an asset such as repairs and maintenance expenditure is not capitalised and is charged to the CIES as an expense when it is incurred.

Measurement

PPE assets are initially measured at cost, comprising:

- the purchase price
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management
- the initial estimate of any future decommissioning costs that will be necessary such as dismantling an item or restoring a site upon which the asset it is located.

Assets are then carried in the Balance Sheet using the following measurement bases:

- infrastructure, community assets and assets under construction are valued at historical cost (depreciated as appropriate)
- dwellings are valued at fair value which is determined by estimating the value of the dwelling for its existing use as a social housing dwelling
- all other assets are valued at "fair value" which is the estimated amount that would be paid for the asset in its existing use.

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost is used as an estimate of fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are credited to the Revaluation Reserve unless there has been a previous reduction in valuation that has been charged to the CIES in which case

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

it is credited to the CIES.

Where decreases in value are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the CIES.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains and losses that arose prior to 1 April 2007 have been transferred to the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- where there is a balance of revaluation gains for the asset in the Revaluation reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- where there is no balance in the Revaluation reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the CIES.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the CIES, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell, and is no longer subject to depreciation. Gains in fair value are recognised only up to the amount of any previously recognised losses. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of:

- their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as held for sale, and
- their recoverable amount at the date of the decision not to sell.

When an asset is disposed of (or decommissioned), the carrying amount of the asset in the Balance Sheet (whether PPE or Assets Held for Sale) is written off to the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the CIES also as part of the gain or loss on disposal (that is netted off against

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Disposal proceeds in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals, net of statutory deductions and allowances, is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Depreciation

Depreciation is provided for on PPE assets that are available for use by the systematic allocation of their depreciable amounts over their useful lives. However, assets that do not have a determinable finite useful life such as freehold land are not depreciated. In addition, assets that are in the course of construction and therefore not yet available for use are also not depreciated.

Depreciation is calculated on the following bases:

- dwellings and other buildings – straight-line allocation over the useful life of the property, as estimated by the valuer
- vehicles, plant and equipment – straight-line allocation over the useful life of the asset, as advised by a suitably qualified officer
- infrastructure – straight-line allocation over 10 years.

Where an item of PPE has major components where the cost is significant in relation to the total cost of the item, and where it is necessary to ensure materially correct depreciation charges, the components are depreciated separately. The Council's policy is to consider for componentisation all assets (excluding land) with a value greater than £1 million and where the component(s) comprise more than 20 % of the value of the asset.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

17. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are created when the Council has an obligation such as a legal claim against it that has arisen from a past event and it is probable that the Council will need to settle that obligation. In addition, it is necessary that the obligation can be reliably estimated.

Provisions are charged as an expense to the appropriate service line in the CIES in the year that the Council becomes aware of the obligation. They are estimated at the balance sheet date, taking into account relevant risks and uncertainties. When payments are made to clear the obligation, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year and where necessary revised. If there is a need to increase the provision, the additional amount is charged to the relevant service in the CIES. If, however, the obligation is estimated or ultimately proves to be less than the value of the provision,

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

the excess amount is credited to the relevant service in the CIES.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (for example from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed as a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed as a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

18. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year in the CIES. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

19. Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the CIES in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so that there is no impact on the level of council tax.

20. VAT

Income and expenditure excludes any amounts related to VAT, as all VAT collected is payable to HM Revenue & Customs and all VAT paid is recoverable from it.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

MOVEMENT ON THE HOUSING REVENUE ACCOUNT STATEMENT

2013-14		2014-15
£000		£000
2,500	Balance on the HRA at the end of the previous year	2,500
21,010	Surplus for the year on the HRA Income and Expenditure Account	38,412
(10,587)	Adjustments between accounting basis and funding basis under statute (see note 23 to the Accounts)	(30,552)
	Net increase before transfers to reserves	7,860
(10,423)	Transfers to reserves	(7,860)
-	Increase in year on the HRA	-
2,500	Balance on the HRA at the end of the current year	2,500

NOTES TO THE HOUSING REVENUE ACCOUNT

1. Gross Rent Income

This is the total rent income due for the year after allowance is made for voids etc. During the year, voids amounted to £533,044 or 1.81% of gross rent income from dwellings (£493,267 or 1.72 per cent for 2013-14). Average rents were £109.47 per week in 2014-15, an increase of £4.27 over the previous year.

2. Rent Arrears

At 31 March 2015, rent arrears were £944,060 (including £335,216 former tenant arrears) or 3.2% of gross rent income. The comparable figures for 2013-14 were £958,678 (including £318,789 former tenant arrears) or 3.34% of gross rent income.

The provision for bad debts at 31 March 2015 was £570,165. The comparable figure for 2013-14 was £473,604.

Amounts written off in the year amounted to £53,439 (£56,025 in 2013-14).

Payments in advance amounted to £275,244 (£229,442 in 2013-14).

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

3. Housing Stock

The Council was responsible for managing on average 5,213 dwellings in 2014-15, analysed below:

2013-14 Average	2014-15
2,628 Houses	2,612
2,295 Flats	2,285
332 Bungalows	316
5,255	5,213

2013-14	2014-15
5,279 Stock at 1 April	5,229
(21) Less Sales	(26)
(29) Other Adjustments	(4)
5,229 Stock at 31 March	5,199

4. Stock Valuation – Balance Sheet Basis

The basis for the balance sheet valuation of the Council's housing stock is Existing Use Value – Social Housing (EUV – SH) as defined by the Royal Institution of Chartered Surveyors Appraisal and Valuation Manual. The EUV – SH is broadly based on the vacant possession value of the properties, adjusted to reflect the occupation by a secure tenant. The valuation was carried out by Wilks Head and Eve, Chartered Surveyors. The date of the valuation was January 2015.

The balance sheet value increases where new dwellings and properties are built or acquired and when capital works that improve or significantly enhance the value of the assets are carried out. The balance sheet value reduces when assets are sold and are written out of the accounts. Depreciation is charged on assets and this also reduced the balance sheet valuation.

Valuations for HRA assets are:

1 April 2014	31 March 2015
£000	£000
369,342 Dwellings (valued at EUV - SH)	434,441
3,841 Other Operational Land and Buildings (valued at MV - EU)	3,769
7 Vehicles, plant, furniture and equipment	6
89 Infrastructure	83
148 Community Assets (historic cost)	148
1,623 Assets under construction	6,813
375,050 Total HRA Assets	445,260

5. Stock Valuation – Vacant Possession Value

Valuation of dwelling stock at Vacant Possession Value within the HRA at January 2015 was £1,213 million. The vacant possession value and the balance sheet value of dwellings within the

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

HRA show the economic cost to Government of providing council housing at less than open market rent.

6. Major Repairs Reserve (MRR)

The MRR is a reserve established by the Government as part of the resources accounting system in the HRA. Movements in the MRR during the year were:

2013-14	2014-15
£000	£000
- Opening Balance at 1 April	1,607
5,678 Depreciation transferred from the HRA	5,952
(4,071) Capital Expenditure on HRA assets financed from the Major Repairs Reserve	(5,489)
1,607 Closing Balance at 31 March	2,070

7. Capital Expenditure and Financing

The table below shows the total amount of capital expenditure incurred in the year together with the resources that have been used to finance it. Where capital expenditure has not been financed in the year, it results in an increase in the Capital Financing Requirement.

2013-14	2014-15
£'000	£'000
196,664 <i>Opening Capital Financing Requirement</i>	196,664
<i>Capital Investment</i>	
6,990 Council dwellings	5,916
1,178 Assets under construction	5,730
8 Intangible assets	19
<i>Sources of finance</i>	
(487) Capital Receipts	(2,263)
(4,071) Major repairs allowance	(5,489)
- New build reserve	(3,313)
(118) Grants and contributions	(600)
- Voluntary revenue provision	(210)
<i>Appropriations</i>	
(3,500) Land	210
196,664 Closing Capital Financing Requirement	196,664

Total capital receipts from disposals of land, houses and other property within the HRA during the financial year amounted to £6.990 million.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

8. Depreciation

The charges for depreciation for the houses and other property within the HRA for the year are as follows:

2013-14		2014-15
£000		£000
5,597	Dwellings	5,872
72	Other Operational Land and Buildings	72
1	Vehicles, plant, furniture and equipment	1
7	Infrastructure	7
5,677	Total HRA Assets	5,952

The depreciation amount has been calculated by the straight-line method and has not been charged on investment properties or on non-operational housing assets.

9. Revaluation gain

The value of council dwellings increased by £67 million in 2014-15, due to rising house prices. £22 million of this gain has been credited to the HRA to reverse the revaluation loss recognised in 2010-11 when the vacant possession adjustment factor used in the valuation of council dwellings was reduced from 45% to 32% in accordance with guidance published by the Government in January 2011. The remainder of the gain has been recognised in the Revaluation Reserve.

10. Contributions to/from the Pensions Reserve

The HRA share of the contributions to the Pensions reserve is as follows:

2013-14		2014-15
£000		£000
411	Reversal of items relating to retirement benefits debited to the HRA	435
(511)	Employer's pensions contributions and direct payments to pensioners payable in the year	(615)
(100)	Contribution to the Pensions Reserve	(180)

NOTES TO THE COLLECTION FUND

1. General

These accounts represent the transactions of the Collection Fund, which is a statutory fund separate from the main accounts of the Council. The accounts are prepared on an accruals basis, and they are consolidated with the other accounts of the Council on an agency basis.

The overall balance on Fund as at 31 March 2015 was a deficit of £1.539 million, made up of a Council Tax surplus of £2.567 million and a deficit in relation to business rates of £4.106 million.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The year-end Collection Fund surplus in relation to council tax is distributed between billing (the Council) and precepting (Surrey County Council and Surrey Police and Crime Commissioner) authorities on the basis of estimates of the year-end balance made on 15 January.

The year-end Collection Fund deficit in relation to business rates is distributed between billing and precepting (central government and Surrey County Council) authorities on the basis of year-end estimates made on 31 January.

2. Income from Business Rates

The Council collects non-domestic rates for its area. These rates are based on local rateable values (£193,581,814 as at 31 March 2015) multiplied by a uniform rate (49.3p standard and 48.0p small business rate in 2014-15). Local authorities retain a proportion of the total collectable rates due. For Guildford this share is 40%. The remainder is distributed to central government (50%) and Surrey County Council (10%).

3. Income from Council Tax

The Council's tax base, that is the number of chargeable dwellings in each valuation band (adjusted for dwellings where discounts apply) converted to an equivalent number of band D dwellings, was calculated as follows:

Band	Estimated number of taxable properties after effect of discounts	Ratio	Band D equivalent dwellings
Dis A	2.25	5/9	1.25
A	549.39	6/9	366.26
B	1,658.77	7/9	1,290.16
C	7,639.00	8/9	6,790.22
D	12,351.69	9/9	12,351.69
E	8,438.95	11/9	10,314.27
F	5,821.39	13/9	8,408.67
G	6,635.76	15/9	11,059.60
H	1,489.22	18/9	2,978.44
	44,586.42		53,560.56

Plus adjustment for MoD properties and collection rates offset by anticipated changes during the year for successful appeals against valuation banding, new properties, demolitions, disabled person's relief, exempt properties and the Local Council Tax Scheme

(372.46)

53,188.10

4. Collection Fund Provisions

The movement of the council tax bad debt provision during the year was as follows:

2013-14 £'000	2014-15 £'000
96 Balance at 1 April	232
500 Transfer from revenue	500
(364) Write offs/write backs	73
232 Balance at 31 March	805

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

The movement on the business rates bad debt provision was as follows:

2013-14		2014-15
£'000		£'000
670	Balance at 1 April	717
375	Transfer from revenue	149
(328)	Write offs	-
<u>717</u>	Balance at 31 March	<u>866</u>

The movement on the business rates appeals provision was as follows:

2013-14		2014-15
£'000		£'000
-	Balance at 1 April	3,900
3,900	Transfer from revenue	5,569
-	RV list amendments	(1,241)
<u>3,900</u>	Balance at 31 March	<u>8,228</u>

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

GLOSSARY

Accrual – the recording of income and expenditure when it becomes due rather than when the cash is paid or received.

Accruals basis – accounting for income or expenditure when it becomes due rather than when the cash is paid out or received.

Appropriations – amounts transferred to or from revenue or capital reserves.

Balance Sheet – a statement which shows the value of the Council's assets and liabilities on a specific day. The final accounts show the value of the assets and liabilities as at 31 March.

Business Rates Retention Scheme – introduced by the Government in April 2013, the scheme means that each council retains some of the business rates generated in its area. The Government still controls the rateable value of the properties and the rate in the pound to be paid.

Capital commitment – a commitment to make a capital payment under a contract.

Capital expenditure – expenditure to purchase or construct a fixed asset, or expenditure adding to the value of an existing fixed asset. Expenditure that does not enhance an asset, such as repairs and maintenance expenditure, is not capital expenditure.

Capital Financing Requirement (CFR) - the monies required to finance capital expenditure.

Capital Receipt – relates to the money from the sale of a fixed asset. Capital receipts can only be used to pay for new capital expenditure or to repay outstanding loans. Capital receipts cannot be used to finance revenue expenditure.

Cash Equivalents – these are short term, highly liquid investments that are readily convertible into cash. They are subject to an insignificant risk of a change in value.

Cash Flow Statement – this shows the movement in cash and cash equivalents in the year.

Chartered Institute of Public Finance and Accountancy (CIPFA) – this is the professional organisation for accountants working in the public sector.

Code (The) – the Code of Practice on Local Authority Accounting in the United Kingdom. This is the code produced by CIPFA/LASAAC that sets out how Councils should show transactions in their accounts and the format of the accounts.

Collection Fund Revenue Account – this shows the transactions relating to national non-domestic rates (NNDR) and council tax. This fund shows on whose behalf Guildford Borough Council collects the amounts due and how these monies are distributed.

Comprehensive Income and Expenditure Statement (CIES) – this shows all the income and expenditure in the year.

Contingency – an amount of money set aside for unforeseen items of expenditure.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Depreciation – a reduction in the balance sheet value of a fixed asset due to either wearing out, consumption, or other reduction in its useful economic life, whether arising from use, passage of time or obsolescence, through technological or other changes.

Earmarked Reserve – money set aside for future use on a specific area of expenditure.

Financial Asset – a right to future economic benefits controlled by the Council.

Financial Liability – an obligation to transfer economic benefits controlled by the Council.

Financial Instrument – a contract that gives rise to a financial asset of one entity and a financial liability or equity investment of another entity.

Financial Year – the year that the accounts relate to. The financial year starts on 1 April and ends on 31 March the following year.

General Fund (GF) – the Council's main revenue fund credited with charges, grants etc. and to which the costs of services are charged. However, separate accounts are maintained for other aspects of Council activities, particularly the Collection Fund.

Heritage Assets – assets which are held and maintained principally for their contribution to knowledge and culture. These include monuments such as Guildford Castle, civic regalia at the Guildhall, the art collection at Guildford House Gallery, sculptures and artwork around the Borough and the museum collection at Guildford Museum.

Housing Revenue Account (HRA) – an account used to record the income and expenditure related to council housing. The Housing Revenue Account is ring-fenced from the rest of the General Fund. This is to ensure that the expenditure on managing tenancies and maintaining council houses is funded by rents charged to council tenants.

Housing Revenue Account Income and Expenditure Statement – this shows the income and expenditure relating to the provision of council housing.

Impairment – a reduction in the balance sheet value of a fixed asset.

International Accounting Standard (IAS) – these are the international accounting standards which state how balances, transactions and other events must be calculated and shown in the accounts.

International Financial Reporting Standards (IFRS) - these are the international financial reporting standards which state how balances, transactions and other events must be calculated and shown in the accounts.

Internal Borrowing – Internal borrowing occurs when rather than raising external borrowing to pay for capital expenditure, the Council uses cash, which would otherwise be externally invested.

Investment – a long-term investment is an investment held for use on a continuing basis in the activities of the Council for 365 days or more. A short-term investment relates to the investment of surplus funds for 364 days or fewer.

Investment Property – a property that is used to earn rental income.

LASAAC – Local Authority (Scotland) Accounts Advisory Committee.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Lease – a lease is a contract for the hire of a specified asset. The lessor owns the asset but transfers the right to use the asset to the lessee for an agreed period in return for the payment of specified rentals. A **finance lease** transfers all the risks and rewards of ownership, such as the cost of repairs and maintenance, to the lessee. All other leases are classified as **operating leases**.

Lessee – an organisation to whom a lease is granted.

Lessor – the owner of an asset who leases it to a third party

Local Council Tax Support Scheme (LCTSS) - introduced by the Government in April 2013. Under the LCTSS, council tax payers who previously received a benefit payment, now receive a discounted council tax bill instead.

Long term – a term of 365 days or more.

Minimum Revenue Provision (MRP) – the minimum amount which must be charged each year to the Council's General Fund revenue account and set aside as provision for credit liabilities. There is no MRP requirement for the Housing Revenue Account (HRA).

Movement In Reserves Statement (MIRS) – this shows the movement in the year on the different reserves held by the Council.

Out-turn – actual income and expenditure.

PPE – Property, Plant and Equipment

Precept – a charge levied by a council. Precepts are levied by Guildford Borough Council, Surrey County Council, Parish Councils and the Surrey Police and Crime Commissioner.

Provision – an amount, set aside in the accounts, for likely liabilities incurred but where the amounts or dates on which they will arise are uncertain.

Prudential Code – a code produced by CIPFA that Councils are required to follow when deciding upon their programme for capital expenditure.

Revenue expenditure – the day-to-day costs incurred by the Council. This is distinct from capital expenditure.

Right to Buy – the right of council tenants to buy their council houses at a discount.

S106 income – money received from planning obligations under Section 106 of the Town and Country Planning Act 1990 (as amended).

Short term – a term of 364 days or fewer.

Straight line basis – depreciation that is charged on a straight line basis is charged in equal amounts for each year of the useful economic life of the fixed asset.

Unapplied capital receipts – capital receipts which have not been used.

Usable reserves – those that the Council can use to finance expenditure or reduce local taxation.

GUILDFORD BOROUGH COUNCIL STATEMENT OF ACCOUNTS 2014-15

Unusable reserves – these cannot be used to finance expenditure or reduce local taxation. These include reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts only become available if the assets are sold; and reserves that hold timing differences.

Vacant Possession Adjustment Factor - a vacant possession adjustment factor of 32% means that the Council values its council houses at 32% of their open market value in the Balance Sheet. The percentages used are set by central government. The vacant possession adjustment factor is used to reflect that a council owned property has a lower open market value when it is occupied by a tenant.
