

CORPORATE GOVERNANCE AND STANDARDS COMMITTEE

15 MARCH 2023

SUPPLEMENTARY INFORMATION

AGENDA ITEM 4: DECISION AND ACTION TRACKER

Updates:

On page 21 of the agenda, in relation to the actions raised as part of the consideration at the last meeting of the item on Safeguarding – Internal Audit Report Update, the Committee is asked to note the following update:

Decision/Action requested	Update on implementation
To collate and circulate to the Committee quantitative data in respect of the number and type of safeguarding referrals and their progress through the system	<p>An end of year overview of the safeguarding referrals will be circulated to the Committee in April.</p> <p>We have not previously collected this information so need to establish from the raw data we have, some criteria for sorting and presenting it. It makes more sense to do this at year end, and can be collated in a similar way for future years.</p>
