1. Executive Summary

- The report summarises the projected outturn position for the Council's General Fund (GF) revenue account and Housing Revenue Account (HRA), based on the latest actual and accrued data.
- Officers are projecting an underspend within services on the GF revenue account of £0.285 million which includes specific reserves transfers. Whilst there are several smaller forecast changes across the Directorates, the main areas that contribute towards this overall adverse position are as follows and also shown in Appendix 2:
- Within Assets & Property there is a favourable forecast position of £0.248 million mainly related to staff vacancies in the Corporate Property team as well as increased income from favourable rent reviews in Industrial Estates.
- There is a forecast favourable variance within Commercial Services of £0.046 million largely due to higher car park income.
- Within the Finance service, there is an adverse forecast position of £0.229 million and that relates to within Finance Specialists where agency costs are pushing the spend over the established budget.

This area is currently being restructured and will be implemented later this year.

- The main adverse position of £0.091 million in Communication & Customer Services is due to a budget shortfall this year being realised related to IT contracts. This is being reviewed as part of the 2025-26 budget exercise.
- There is a forecasted overspend of £0.250 million from necessary refuse freighter hire due to an aged fleet as well as an increased unbudgeted cost to manage horse fly grazing.
- The favourable forecast of £0.173 million in Housing Services is due to a number of vacant posts within the Teams as well as an unbudgeted end of year Housing Benefit claim that will be amended for 2025-26.
- Within the Legal & Democratic Services, the current favourable forecast is related to additional Housing Revenue Account recharges following a recalculation.

The Directorates, Corporate adjustments, provisions and external interest receivable, is forecast to give an overall favourable variance of £0.274 million. Any surpluses or deficits would impact reserves at year end.

Officers are projecting an overspend on the HRA of £0.247 million, details are highlighted in Appendix 3.

GF reserves are forecast to be £35.412 million at year end, of which £18.308 million are unusable and £17.104 million are available and classed as usable, this excludes the GF working balance.

Progress against the capital programme is underway. The Council currently expects to spend £127.518 million on its capital schemes by the end of the financial year against a revised budget of £166.806 million.

Debt due to the council is £9.053 million of which £5.117 million is overdue. Of that, £1.319 is supported by payment plans leaving £3.798 million as remaining overdue debt due to the council.

There are £4.981 million savings within the 2024/25 budget which can be seen in Appendix 5 and will be monitored and reported on monthly.
